### SAFETY DATA SHEET

Industries Inc.

This Safety Data Sheet complies with the Canadian Hazardous Products Regulations, the United States Occupational Safety and Health Administration (OSHA) Hazard Communication Standard, 29 CFR 1910 (OSHA HCS), and the European Union Directives.

### **1** Product and Supplier Identification

1.1 Product: **Lights Out** 1.2 Product Use: Nail Gel 1.3 **Producer:** Haigh Industries Inc. #5-8118 North Fraser Way **Burnaby BC Canada** V5J 0E5 Telephone: (604) 278-5851 1.4 Supplier: As above 1.5 Emergencies (24-hour number): +1(604) 278-5851

### 2 Hazards Identification

#### 2.1 Classification of product or mixture

Note to reader: This product in an untested mixture and GHS classification is based on the classification of the ingredients and their concentrations. Proprietary ingredients do NOT exhibit any health effects not listed in this SDS.

GHS Classification:

Skin Irritation: Category 2 Eye Irritation: Category 2A Skin Sensitization: Category 1 Reproductive Toxicity: Category 2

2.2 GHS Label Elements Pictogram:

#### Signal Word: Warning

#### **GHS Hazard Statements:**

H315	Causes skin irritation.
H317	May cause an allergic reaction.
H319	Causes serious eye irritation.
H361	Suspected of damaging fertility or the unborn child.

#### **GHS Precautionary Statements:**

Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
Avoid breathing dust/fume/gas/mist/vapours/spray
Wash skin thoroughly after handling.
Wash contaminated clothing before reuse.
Contaminated work clothing should not be allowed out of the workplace.
Wear protective gloves/protective clothing/eye protection/face protection.
IF ON SKIN: Wash with plenty of soap and water.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
IF exposed or concerned: Get medical advice/attention.
Call a POISON CENTER or doctor/physician if you feel unwell.
Specific treatment (see Section 4).
If skin irritation or rash occurs: Get medical advice/attention.
If eye irritation persists: Get medical advice/attention.
Take off contaminated clothing and wash it before reuse.
Store in a well-ventilated place. Keep container tightly closed.
Store locked up.
Dispose of contents/containers to an approved waste disposal plant.

#### 2.3 Hazards not otherwise classified (HNOC) or not covered by GHS: None

#### 2.4 Additional Information

Primary Routes of Entry:		
Skin Contact:	Yes	
Skin Absorption:	Yes	
Eye Contact:	Yes	
Ingestion:	No	
Inhalation:	Yes	

**Emergency Overview:** This product contains ingredients which may cause mild eye and skin irritation in some people. For eye contact, symptoms may include a moderate burning sensation, tearing, redness, or swelling. Contact with skin may cause an allergic reaction due to prior sensitization. Local redness, rash, or itchy skin may occur in those persons with a pre-existing sensitivity or those predisposed to skin problems. In rare cases an allergic skin reaction may occur after long term contact with this product.

#### Effects of Short Term (Acute) Exposure:

**Inhalation:** Due to the low volatility of this product, no significant adverse health conditions are expected to occur during the proper use of this product. In rare cases some respiratory irritation may occur.

**Skin Contact:** It is expected that absorption through the skin will contribute to overall exposure. Contact with skin may cause an immediate allergic reaction in persons who may be sensitized by previous exposures. Symptoms may include an immediate rash, local redness, or itching of the skin.

**Eye Contact:** This product is an eye irritant. Exposure to the eye may cause symptoms which include a burning sensation, tearing, redness and swelling.

**Ingestion:** No adverse health effects are expected if a small amount of this product is accidentally ingested.

Effects of Long-Term (Chronic) Exposure: This product contains ingredients which have been known to cause skin sensitization in some people. Sensitization may occur after prolonged or repeated exposures to this product. Prolonged contact with skin may defat tissue causing dermatitis or aggravate existing skin problems.

**Medical Conditions Aggravated by Exposure:** Persons susceptible to skin problems may find that the use of this product will cause increased symptoms of existing skin problems.

# 3 Composition

#### 3.1 Mixture Composition

Component	CAS No.	EINECS No.	% (w/w)	GHS Classification
Di-HEMA Trimethylhexyl Dicarbamate			60-75	Skin Irritant (Category 2): H315 Skin Sensitizer (Category 1): H317 Eye Irritant (Category 2A): H319
				STOT-SE (Category 3): H335
Tetradecaaluminum Tetrastrontium Pentacosaoxide			10-30	None assigned
HEMA (2-Hydroxyethyl Methacrylate)	868-77-9	212-782-2	5-8	Skin Irritant (Category 2): H315 Skin Sensitizer (Category 1): H317
Hydroxypropyl Methacrylate	27813-02-1	248-666-3	4-7	Skin Sensitizer (Category 1): H317 Eye Irritant (Category 2A): H319
Trimethylbenzoyl Diphenylphosphine Oxide	75980-60-8	278-355-8	1-2	Skin Sensitizer (Category 1): H317 Reproductive Hazard (Category 2): H361 Chronic Aquatic Toxicity (Category 2): H411
Silica Silylate	68909-20-6		0-1	None assigned
P-Hydroxyanisole (4- Methoxyphenol)	150-76-5	205-769-8	< 0.01	Acute Toxicity Oral (Category 4): H302 Eye Irritant (Category 2A): H319 Acute Aquatic Toxicity (Category 3): H402 Chronic Aquatic Toxicity (Category 3): H412

### 4 First Aid Measures

#### 4.1 Description of First Aid Measures

**General Advice:** Consult a physician. Show this safety data sheet to the physician in attendance. Move away from dangerous area. Remove contaminated clothing. Completely decontaminate clothing, shoes and leather goods before re-use or discard.

**In Case of Eye Contact:** Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for 20 to 30 minutes or until the chemical is removed, while holding the eyelid(s) open. Obtain medical attention immediately or transport to a medical facility and continue to flush the eyes en route.

**In Case of Skin Contact:** Wash gently and thoroughly with water and non-abrasive soap for at least 20 minutes or until chemical is removed. If signs of sensitization or irritation occur, obtain medical advice.

**If Inhalation:** Remove source of contamination or move victim to fresh air. If breathing is difficult, give artificial respiration. If breathing is difficult oxygen may be beneficial if administered by trained personnel, preferably on a doctor's advice. DO NOT allow the victim to move about unnecessarily. Consult a physician.

**If Ingestion:** Ingestion unlikely. Never give anything by mouth if victim is rapidly losing consciousness. Have victim rinse mouth thoroughly with water. Do not induce vomiting. Dilute contents of stomach with 240 to 300 ml of water. If vomiting occurs naturally have victim lean forward to reduce risk of aspiration. Seek immediate medical attention.

## 4.2 Most Important Symptoms and Effects Acute and Delayed Effects of Short-Term (Acute) Exposure:

**Inhalation:** Due to the low volatility of this product, no significant adverse health conditions are expected to occur during the proper use of this product. In rare cases some respiratory irritation may occur.

**Skin Contact:** It is expected that absorption through the skin will contribute to overall exposure. Contact with skin may cause an immediate allergic reaction in persons who may be sensitized by previous exposures. Symptoms may include an immediate rash, local redness, or itching of the skin.

**Eye Contact:** This product is an eye irritant. Exposure to the eye may cause symptoms which include a burning sensation, tearing, redness and swelling.

**Ingestion:** No adverse health effects are expected if a small amount of this product is accidentally ingested.

Effects of Long-Term (Chronic) Exposure: This product contains ingredients which have been known to cause skin sensitization in some people. Sensitization may occur after prolonged or repeated exposures to this product. Prolonged contact with skin may defat tissue causing dermatitis or aggravate existing skin problems.

**Medical Conditions Aggravated by Exposure:** Persons susceptible to skin problems may find that the use of this product will cause increased symptoms of existing skin problems.

#### 4.3 Indication of Any Immediate Medical Attention and Special Treatment Needed

In the event of an allergic reaction, immediate medical help is required. Allergic reactions may result in various health effects including respiration.

### **5** Fire Fighting Measures

#### 5.1 Extinguishing Media

Dry chemical, carbon dioxide, water spray, foam, or water fog.

#### 5.2 Special Hazards Arising from Mixture Carbon dioxide, carbon monoxide, oxides of nitrogen, undetermined organic compounds in acrid smoke.

#### 5.3 Advice for Firefighters

Do not enter fire area without proper protection. Fight fire from a safe distance, upwind. Use of water may be ineffective due to low solubility. If water is used, direct fine spray or fog at fire to cool and extinguish flames.

#### 5.4 Further Information Sensitivity to Impact: No

Sensitivity to Static Discharge: No

#### NATIONAL FIRE PROTECTION ASSOCIATION (NFPA) HAZARD INDEX: HEALTH: 3 FLAMMABILITY: 1 REACTIVITY: 0

### 6 Accidental Release Measures

#### 6.1 Personal Precautions, Protective Equipment and Emergency Procedures

**Respiratory Protection:** Vapours will be generated particularly if product is atomized, or heated. If used or sprayed in an enclosed area, at a minimum use a NIOSH approved organic vapour respirator. When cartridge type respirators are used, ensure that the cartridges are changed frequently according to the manufacturer's recommendations. Respirator selection must be done by a qualified person and be based upon a risk assessment of the work activities and exposure levels. Respirators must be fit tested and users must be clean shaven where the respirator seals to face. Exposure must be kept at or below the applicable exposure limits and the maximum use concentration of the respirator must not be exceeded.

**Skin Protection:** Depending upon the conditions of use, protective gloves and clothing to prevent skin contact.

**Eye and Face Protection:** Chemical splash goggles and/or face shield must be worn when a possibility exists for eye contact due to splashing or spraying liquid. Contact lenses should not be worn.

#### Footwear: No specific recommendation.

**Other:** Emergency eyes wash fountains should be available in vicinity of use. At minimum, an eye lavage kit should be kept on hand.

#### 6.2 Environmental Precautions

Ensure that any release of this material is contained to prevent leakage into waterways and sanitary sewers.

#### 6.3 Methods and Materials for Containment and Cleanup

**Remedial Measures:** Wash spill area with strong detergent and water solution, rinse with minimal water, if possible.

**Large Spills:** For large spills, dike area and prevent leakage into waterways or sanitary sewers. Recover using spark proof equipment and store in approved vented containers for re-use or disposal.

**Small Spills:** Small spills may be absorbed on an inert medium such as vermiculite or clay, then sweep into vented disposal containers.

#### 6.4 Reference to Other Sections

For disposal, see section 13.

### 7 Handling and Storage

#### 7.1 Precautions for Safe Handling

**Handling Procedures:** Wear proper protective equipment when handling this material. Only use non-sparking tools when handling this material.

#### 7.2 Conditions for Safe Storage

Store indoors in a well-ventilated area where the storage temperature can be maintained between 1oC and 38oC. Storage above 38oC will result in reduced product life. Store in tightly closed containers away from heat, sparks, open flame, strong oxidizers, radiation and other initiators. Prevent contamination with foreign materials, including moisture.

#### 7.3 Specific End Use(s)

No other uses except those mentioned in Section 1.2.

### 8 Exposure Controls and Personal Protection

### 8.1 Control Parameters

Components with Workplace Control Parameters: None known.

#### 8.2 Exposure Controls

**Engineering Controls:** When using indoors, ensure adequate ventilation by using local exhaust. Mechanical ventilation is recommended for all indoor situations to control fugitive emissions. Electrical and mechanical equipment should be explosion proof.

**Respiratory Protection:** Vapours will be generated particularly if product is atomized, or heated. If used or sprayed in an enclosed area, at a minimum use a NIOSH approved organic vapour respirator. When cartridge type respirators are used, ensure that the cartridges are changed frequently according to the manufacturer's recommendations. Respirator selection must be done by a qualified person and be based

upon a risk assessment of the work activities and exposure levels. Respirators must be fit tested and users must be clean shaven where the respirator seals to face. Exposure must be kept at or below the applicable exposure limits and the maximum use concentration of the respirator must not be exceeded.

**Skin Protection:** Depending upon the conditions of use, protective gloves and clothing to prevent skin contact.

**Eye and Face Protection:** Chemical splash goggles and/or face shield must be worn when a possibility exists for eye contact due to splashing or spraying liquid. Contact lenses should not be worn.

Footwear: No specific recommendation.

Other: Emergency eyes wash fountains should be available in vicinity of use.

**Control of Environmental Exposure:** Prevent further leakage or spillage, if safe to do so. Do not let product enter drains.

### 9 Physical and Chemical Properties

#### 9.1 Information on Basic Physical and Chemical Properties

9.2 Other Safety Information None

### 10 Stability and Reactivity

#### **10.1 Reactivity** Product may become reactive if inhibitor is depleted.

10.2 Chemical Stability

Stable as supplied.

#### 10.3 Possibility of Hazardous Reactions

High temperatures, inhibitor depletion, accidental impurities, or exposure to radiation or oxidizers may initiate spontaneous polymerization, generating heat and pressure. Closed containers may rupture during hazardous polymerization.

#### 10.4 Conditions to Avoid

Exposure to heat, light and moisture.

### 10.5 Incompatible Materials

Keep away from strong oxidizers and moisture.

#### **10.6 Hazardous Decomposition Products**

Carbon monoxide, carbon dioxide and various oxides of nitrogen.

### **11 Toxicological Information**

#### 11.1 Information on Toxicological Effects

Note to reader: We do not test our products on animals. In compliance with current SDS preparation requirements, the values listed are published values for generic ingredients with known animal toxicity.

#### Acute Toxicity

Component	LD <sub>50</sub>	LC <sub>50</sub>
Hydroxypropyl Methacrylate	>2000 mg/kg (oral/rat)	N/av
CAS No. 27813-02-1	>5000 mg/kg (dermal/rabbit)	
EINECS No. 248-666-3		
Trimethylbenzoyl Diphenylphosphine Oxide	>5000 mg/kg (oral/rat)	N/av
CAS No. 75980-60-8	>2000 mg/kg (dermal/rabbit)	
EINECS No. 278-355-8		

Abbreviation Key: N/p: not published, N/d: not determined, N/ap: not applicable, N/av: not available.

#### 11.2 Skin Corrosion/Irritation

Components of this mixture may cause skin irritation, H315, Category 2, Warning

#### 11.3 Serious Eye Damage/Eye Irritation

Components of this mixture may cause eye irritation, H319, Category 2A, Warning

#### 11.4 Respiratory of Skin Sensitization

Components of this mixture may cause skin sensitization, H317, Category 1, Warning

#### 11.5 Germ Cell Mutagenicity

No information available.

- **11.6 Carcinogenicity** No information available.
- **11.7 Reproductive Toxicology** Components in this mixture are suspected of damaging fertility or the unborn child, H361, Category 2, Warning
- **11.8** Specific Target Organ Toxicity Single Exposure No information available.
- **11.9** Specific Target Organ Toxicity Repeated Exposure No information available.
- 11.10 Aspiration Hazard

No information available.

#### 11.11 Additional Information

None

### **12 Ecological Information**

#### 12.1 Toxicity To Fish:

Hydroxypropyl methacrylate	LC <sub>50</sub>	48H	493 mg/L
4-Methoxyphenol	LC <sub>50</sub>	96H	28.5 mg/L (Rainbow trout)
Trimethylbenzoyl diphenylphosphine oxide	LC <sub>50</sub>	48H	6.53 mg/L

#### To Algae:

Hydroxypropyl methacrylate	EC <sub>50</sub>	72H	> 97 mg/L
4-Methoxyphenol	No data available		
Trimethylbenzoyl diphenylphosphine oxide	EC <sub>50</sub>	72H	> 2.01 mg/L

#### To Daphina:

Hydroxypropyl methacrylate	EC <sub>50</sub>	48H	> 143 mg/L
4-Methoxyphenol	No data available		
Trimethylbenzoyl diphenylphosphine oxide	EC <sub>50</sub>	48H	3.53 mg/L

#### 12.2 Persistence and Degradability

Trimethylbenzoyl diphenylphosphine oxide is considered to be poorly biodegradable.

- 12.3 Bio accumulative Potential No data available
- 12.4 Mobility in Soil No data available
- 12.5 Results of PBT and vPvB Assessment Not conducted
- 12.6 Other Adverse Effects No data available

### **13 Disposal Considerations**

#### 13.1 Waste Treatment Methods

**Product:** Review federal, provincial or state, and local government requirements prior to disposal. Store material for disposal as indicated in Storage Conditions. Disposal by controlled incineration or by secure land fill may be acceptable.

Contaminated Packaging: Dispose as above.

### 14 Transport Information

Transport of Dangerous Goods (TDG and CLR): Not regulated

United States Department of Transport (49CFR): Not regulated

International Air Transport Association (IATA): Not regulated

International Maritime Organization (IMO): Not regulated

### **15 Regulatory Information**

#### 15.1 CANADIAN FEDERAL REGULATIONS CEPA, DOMESTIC SUBSTANCES LIST: Listed

#### 15.2 UNITED STATES FEDERAL REGULATIONS TOXIC SUBSTANCES CONTROL ACT (TSCA): All components are listed in the inventory.

California Proposition 65: No ingredients listed.

OSHA (29 CFR 1910 Subpart Z): Meets criteria for a hazardous substance.

CERCLA (40 CFR 302): No ingredients listed.

SARA 302 (40 CFR 355): No ingredients listed.

SARA 313 (40 CFR 372): No ingredients listed.

SARA 311/312 (40 CFR 370): Immediate (Acute) Health, Delayed (Chronic) Health

Massachusetts Right to Know: 4- Methoxyphenol (p- Hydroxyanisole)

**New Jersey Right to Know:** 4- Methoxyphenol (p- Hydroxyanisole), Trimethylbenzoyl Diphenylphosphine Oxide

**Pennsylvania Right to Know:** 4- Methoxyphenol (p- Hydroxyanisole), Trimethylbenzoyl Diphenylphosphine Oxide

### 16 Other Information
