A concept that has proven itself for over 20 years

3

Made from high quality ecological materials

4

A manual and a video to help you with the finishing

5

No tools required, easy to set up

Watch our video on how to make and finish your kit

St phane Marguerite is the designer of these kits. He created the Wallaby boomerangs workshop in 1993 and with his experience in competition at the highest level since 1983 as a thrower in the French and Canadian teams, he designs collections of wooden boomerangs for the whole family in his workshop in the Var. All of these handcrafted and signed models are world renowned for their reliability, aesthetics and ease of use. They have been used for years in schools and summer camps throughout Europe. With your purchase, you support the traditional know-how and the work of a local craftsman.

So go for it!
