Raw Organic Whey
Raw Grass Fed Whey
RAW01A

Detailed Method Description(s)

Full Antibiotic

Sample analysis follows MWL LCMS 011 which is based on FDA LIB 4438. Submitted samples for antibiotics measurement are extracted with trichloroacetic acid and EDTA solutions, reagent water, and methanol. The extracts are cleaned and concentrated using solid phase extraction (SPE). The extracts are injected into a LC/MS/MS for separation and quantification.

The result(s) issued on this report only reflect the analysis of the sample(s) submitted.
