### COWL

#### Step One

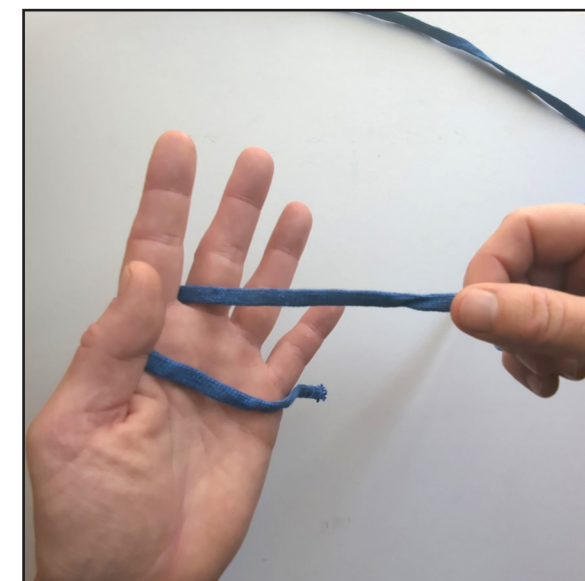

Lay the end of the yarn over your palm as shown.

Step One

#### Step Two

Bring the working yarn (the end of the yarn coming from the ball) around to the back of your hand, underneath your index finger and over your middle finger.

Step Two

#### Steps Three - Four

Take the yarn over your middle finger, under your ring finger, and then over your pinky finger. Notice that you are alternating over/under with every other finger.

Take the yarn back under your pinky, over your ring finger, under your middle finger, and finally back over your index finger.

**Steps Six-Eight**

Take the lowermost loop on your index finger and lift it up and over the top loop. Take the lowermost loop on your middle finger and lift it up and over the top loop. Repeat for ring and pinky fingers.

## Finishing Continued

With the tail, sew the ends together. Wrap the piece three times so there are three loops of the same circumference. Take a separate piece of yarn and wrap it around the three loops over the seam to secure. Cut yarn and weave in end.
