

**SIZES**

One Size

**FINISHED MEASUREMENTS**

16" Circle

**MATERIALS**

Premier® Yarns *Snow Cone* (100% Polyester; 7 oz/200g, 30 yds/28m)

- #1129-01 Lemon – 1 ball

**Notions:** 16" Styrofoam wreath form

**GAUGE**

Not applicable, keep even tension for best results.

**PATTERN NOTES**

This wreath is worked by using finger crochet to form slip stitches around a Styrofoam wreath form. Visit PremierYarns.com for a step-by-step video tutorial.

**WREATH**

Make slip knot, leaving a long tail (8"). Tie tail in a double knot near the base of the slip knot to form a loop for hanging, leaving a short tail (1-2"). Hold slip knot at the top of the wreath form with working yarn towards back and hanging loop to the right. Holding slip knot open with right hand, reach through center of wreath and pull working yarn through, wrapping it around the wreath form and pulling a loop through the slip knot forming a slip stitch. Holding loop open with right hand, use left hand to pull working yarn back through the center of the wreath, wrapping it around the wreath form, and pulling up a loop through the slip stitch.

Continue in this manner until the wreath form is almost completely covered. Drape hanging loop over right hand, and when wrapping and pulling up new loops, do it over the hanging loop to help secure it. Cut yarn and pull through last loop to fasten off. Fluff and redistribute yarn around wreath form for desired look.

**FINISHING**

Using hands, weave in end by pulling it under loops and wraps on the back of wreath.

# Finger Crochet Wreath
