Installing to Desk Frame

This desktop is pre-drilled to match the mounting holes in most VIVO electric desk frames with two legs. Some frames will not fit these holes. In this case, you will need to drill your own to match your frame. Mount the desktop to the desk frame using screws. If using a VIVO desk frame, make sure to orientate the desktop so the control panel or crank handle pilot holes are facing the front. Please note that mounting screws are not included with this desktop. Use the mounting hardware included with your standing desk frame to mount the desktop.
