

**ATTENTION: TO AVOID PINCHING CABLES, PLEASE READ THE FOLLOWING INSTRUCTIONS**

### STEP 1

Remove cable from cable tie as shown.

*Optional:* Removing the cable tie itself is not necessary, but can be done if desired.

### STEP 2

Place two cable ties on inside of leg opposite the controller in the locations shown.

### STEP 3

Re-route cable through both cable ties making sure to leave a little slack before the top cable tie.

### STEP 4

Use the twist tie to bundle the remaining slack after the cable is secured through both cable ties.
