№ WARNING!

If you do not understand these directions, or if you have any doubts about the safety of the installation, please call a qualified technician. Check carefully to make sure there are no missing or defective parts. Improper installation may cause damage or serious injury. Do not use this product for any purpose that is not explicitly specified in this manual. Do not exceed weight capacity. We cannot be liable for damage or injury caused by improper mounting, incorrect assembly or inappropriate use.

NOTE: NOT ALL HARDWARE INCLUDED WILL BE USED

A CAUTION!

DO NOT INSTALL INTO DRYWALL ALONE. VERIFY YOUR WALL CONSTRUCTION. USE WOOD STUDS TO MOUNT. We include mounting for brick and concrete walls. If unsure, please contact us at vivo-us. com, email at help@vivo-us.com, or call us at 309-278-5303.

TOOLS NEEDED

DO NOT EXCEED WEIGHT CAPACITY.
Failure to do so may result in serious injury.

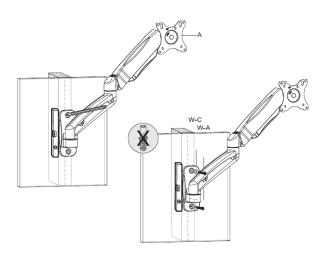

SMALL PARTS - NOT FOR CHILDREN UNDER 3 YEARS. ADULT SUPERVISION IS REQUIRED.

ASSEMBLY STEPS

STEP 1

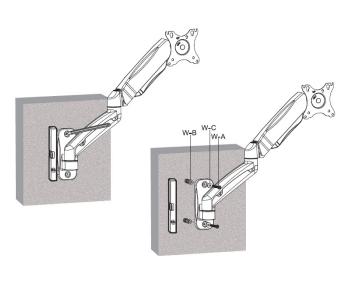

OPTION A: Wood Wall

Use a pencil to mark drilling location for wood beam and drill 2.2" deep holes using 3/16"bit. Use of a stud finder is recommended. Mount Arm (A) to wall using Wall Screws (W-A) and Washers (W-C). Do NOT use Anchors (W-B) for wood beam installation.

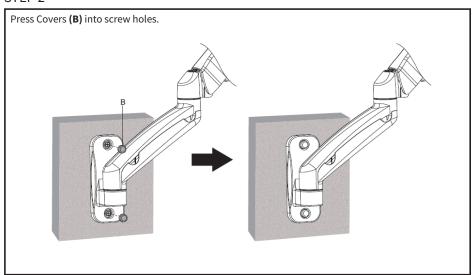

OPTION B: Concrete/Brick Wall

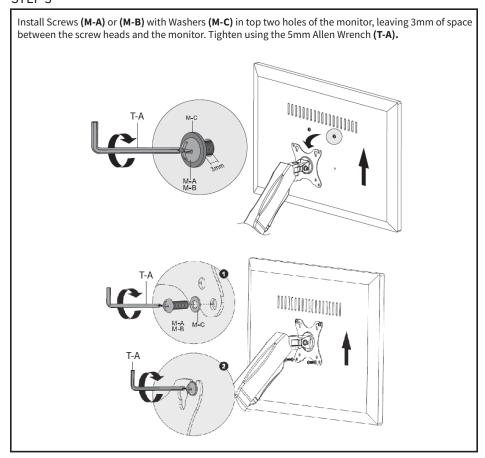

For concrete or brick wall installation, use a pencil to mark drilling locations and drill (x2) 4" deep holes using a 3/8" bit. Mount Arm (A) to wall using Screws (W-A), Anchors (W-B), Washers (W-C).

STEP 2

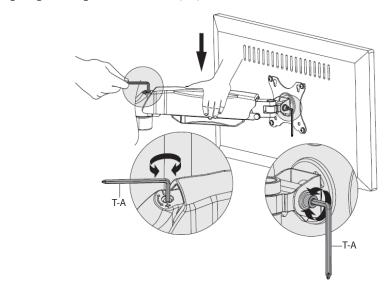

STEP 3

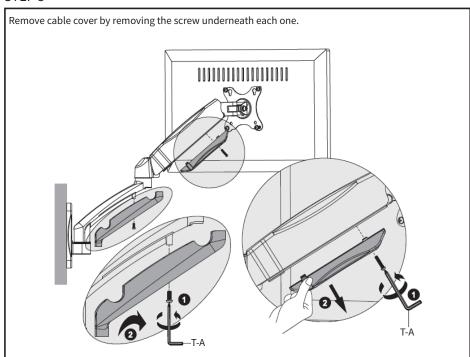

STEP 4

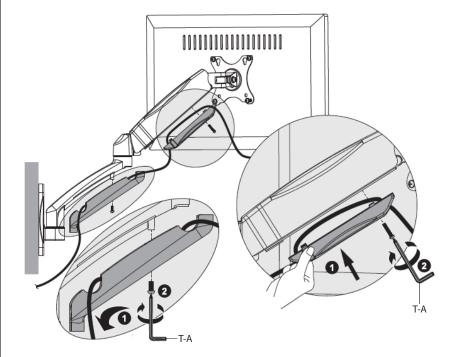

Tighten the socket screw if the joints are making a popping sound. Adjust arm tension by turning screw with 5mm Allen Wrench (T-A). Turn clockwise to reduce tension and turn counterclockwise to increase tension. The tension should be just enough to hold your monitor In place without lifting itself up. If needed, adjust bolts on the sides of the hinge behind the VESA plate to tighten or loosen the tilt angle. Tighten using 5mm Allen Wrench (T-A).

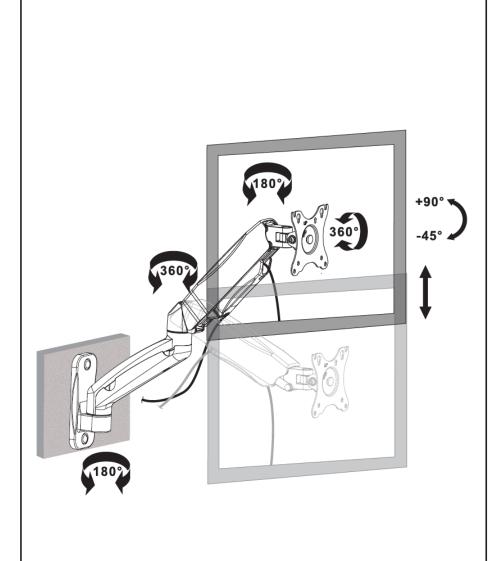

STEP 5

Insert cables and replace covers while making sure the cables have enough slack to allow enough free movement of the arm.

Open Monday - Friday 7:00am - 7:00pm CST,

our dedicated support team can offer immediate assistance with rapid response times. If any parts are received damaged or defective, please contact us. We are happy to replace parts to ensure you have a fully functioning product.
