### ASSEMBLY STEPS

#### STEP 1

Slide the square plate connectors and rubber pads (**3**) over the top of the poles on your VIVO STAND-TV03E TV cart. Tighten the grub screws using Allen wrench from tool kit (**4**).

#### STEP 2

Attach the square plate (**1**) to the square plate connectors (**3**) with M6x10 bolts (**5**) and eight M6 washers (**10**) using Allen wrench from tool kit (**4**).

#### STEP 3

Clip bubble level from tool kit (**4**) onto the square plate (**1**). Adjust the level of the square plate by loosening the grub screw on the back of the square plate connector (**3**). Retighten grub screw when square plate is level.

#### STEP 4

Secure TV arm set (**2**) to the back of your TV using bolts (**6, 7, 8**) and washers (**9, 10, 11**), depending on the size and depth of the mounting holes in the TV. For curved or recessed back TVs, spacers (**12, 13**) may be required.

#### STEP 5

Attach the TV arm set (**2**) with TV to the square plate (**1**). Tighten the safety bolts on the bottom of the TV arm set to secure the TV to the stand. If additional leveling and height adjustment is required after TV is attached, repeat Step 3.

#### STEP 6

If used to upgrade a VIVO STAND-TV03E TV cart to hold dual screens, we recommend positioning both TVs to face forward with one mounted over the other. Please note that the shelf included with STAND-TV03E cannot be attached when two TVs are mounted.
