**WARNING!**

If you do not understand these directions, or if you have any doubts about the safety of the installation, please call a qualified technician. Check carefully to make sure there are no missing or defective parts. Improper installation may cause damage or serious injury. Do not use this product for any purpose that is not explicitly specified in this manual. Do not exceed weight capacity. We cannot be liable for damage or injury caused by improper mounting, incorrect assembly or inappropriate use.

**WARNING: CHOKING HAZARD**

SMALL PARTS - NOT FOR CHILDREN UNDER 3 YEARS. ADULT SUPERVISION IS REQUIRED.

**NOTE:** SOME HARDWARE INCLUDED MAY NOT BE USED

### TOOLS NEEDED

- Phillips Screwdriver

**DO NOT EXCEED WEIGHT CAPACITY.**

Failure to do so may result in serious injury.

13.2lbs (5.99kg)
STEP 1

**OPTION A: Desk Clamp Installation**
Attach clamp support (B) onto base of monitor stand (A) with screws (H) using 4mm allen wrench (J). Attach clamp (C) to clamp support (B) at desired depth with screws (H) using 4mm allen wrench (J). Attach cable management clip (D) to clamp support (B). Secure to desk.

**OPTION B: Grommet Base Installation**
Slide bolt (E) through grommet base (F). Attach grommet base (F) to monitor stand (A) with screws (H) using 4mm allen wrench (J). Secure to desk with support plate (I) and knob (G).
STEP 2

Insert screws (M-A or M-B) with washers (M-C) into top 2 holes on back of monitor. Leave slightly loosened. Slide monitor onto VESA plate. Insert screws (M-A or M-B) with washers (M-C) into bottom 2 holes of VESA plate into the monitor. Tighten all screws using 5mm allen wrench (K).
Adjust arm tension by turning bolt with 5mm Allen Wrench (K). Clockwise reduces tension, counterclockwise increases tension. The tension should be just enough to hold your monitor in place without lifting itself up. If needed, adjust the bolts on the sides of the hinge behind the VESA plate to tighten or loosen the tilt angle.
STEP 4
Remove cable covers from upper and lower arms. To remove lower cover, remove the screw as shown, pull slightly forward, up and off.

STEP 5
Insert cables. Replace covers making sure the cables have enough slack to allow free movement of the arm.
Adjust as Desired
