## SNOWMASS BASE VILLAGE

20 Carriage Way, 970-923-8716, [aspensnowmass.com](http://aspensnowmass.com)

Phase one of the \$600 million resort development—the largest resort base village under construction in North America—will be complete in November, with the grand opening slated for December 15. Completion of the 10-year project will transform the area into a thriving village with an ice rink, fire pit, new restaurants, the Limelight Snowmass Hotel and Residences, the Lumin Residences, a new public plaza and One Snowmass. Two base area lifts, Elk Camp gondola and the Village Express high-speed chairlift, will service the 3,332 acres of skiable terrain. "I'm really excited about the public plaza," says developer East West founder and chair Harry Frampton. "Think of the 2,000-year-old town squares in Europe. It's a gathering place for locals and guests alike to celebrate the Snowmass vibe."

Among the new restaurants are Toro Latin Kitchen and Lounge, in the Viceroy Snowmass, by chef Richard Sandoval and State 38, a Colorado restaurant with farm-to-table flair by chef David Dugan.

"Every iconic destination needs a central place that connects people around activities and amenities to foster memorable moments," Frampton says. "The village is destined to be that for Snowmass."
