

Groundhog Day

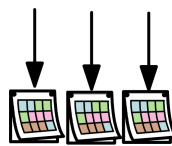

Groundhog

Day is

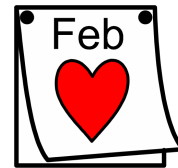

celebrated

every year

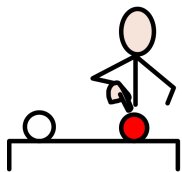

on

February

2nd

second.

On

this

day,

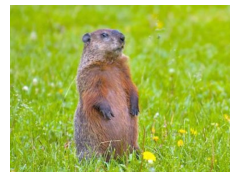

people

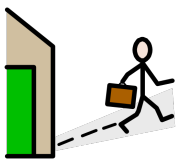

wait

for the

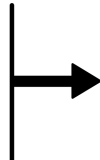

groundhog

to

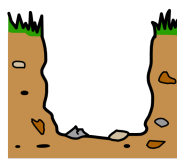

emerge

from

his

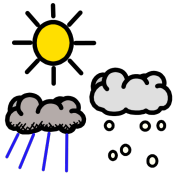

hole.

It is

believed

that if the

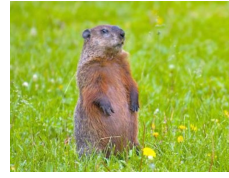

weather

is

cloudy,

and the

groundhog

doesn't see

his

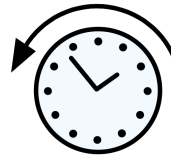

shadow,

spring

will be

early!

But if the

groundhog

sees

his

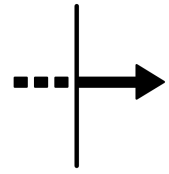

shadow,

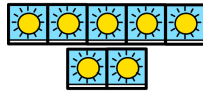

winter

will

continue

for six

more

weeks.
