

Four Levels of Refurbishment Service

Choose whether your bells need a top-to-bottom Complete Refurbishment, our Essential Handbell Refurbishment, or our basic Clean, Polish and Adjust. We provide a refurbishment that meets your needs. Please be informed that all our facilities will now only use our Optional Polishing Method to help preserve the integrity of our tuning standards. Because this method is less aggressive natural blemishes/marks might remain on an aging casting.

① Clean, Polish and Adjust Refurbishment

This option is exclusive to those who have, within the past five years, had their handbell sets refurbished by Schulmerich or one of our Authorized Refurbishment Centers.

Tuning check	Optimize tension adjustments
Handbell inspection	Voice/Blend handbells
Disassemble handbells	Final tuning check
