

Four Levels of Refurbishment Service

Choose whether your bells need a top-to-bottom Complete Refurbishment, our Essential Handbell Refurbishment, or our basic Clean, Polish & Adjust. We provide a refurbishment that meets your needs. Please be informed that all of our facilities will now only use our Optimal Polishing Method to help preserve the integrity of our tuning standards. Because this method is less aggressive, natural blemishes/marks might remain on an aging casting.

1 Clean, Polish & Adjust Refurbishment

This option is exclusive to those who have, within the past five years, had their handbell sets refurbished by Schulmerich or one of our Authorized Refurbishment Centers.

Tuning Check	Vacuum Cases
Handbell Inspection	Polish Castings
Disassemble Handbells	Reassemble Parts & Handbells
Replace minor parts:	Optimize Tension
• Anti-Friction Washers	Adjustments
• Bumpers	Voice/Blend Handbells
• Stop Nuts	Final Tuning Check
Additional parts replaced with customer's authorization for an additional fee
