OUR EDUCATIONAL GAMES

LEARNING THROUGH ART AND PLAY!

Lalita's Art Shop's mission is to awaken and nurture children's imagination by introducing them to the wonderful world of visual arts.

Through play, children will discover, learn and build a better perception of themselves and the world in which they live.

At Lalita's Art Shop, we create educational games that give children the opportunity to discover new ideas and learn new concepts, all while having FUN!

For a more diverse imagery and point of view, we have reached out to amazing artists with different backgrounds to create original artworks for our games.

 Claude Thivierge, Elise Charette and André Martel

4 BONUS CARDS!
CREATE YOUR OWN OBJECT CARDS!

Draw 4 new objects to add to the game!

Give them a number of points (stars) according to their difficulty.

A GAME OF
CREATIVE ASSOCIATIONS

A lightbulb and a plane... Same, not the same?

Be the first to identify the most similarities and differences between the OBJECT cards!

A LASEG1040 MISMO
DISCUSSION - ASSOCIATION - CREATIVITY - SPEED

OBJECT OF THE GAME: Be the first player to find the most characteristics which unite the items illustrated on the OBJECT cards and to find the most differences which distinguish them!

A game of creative associations that helps develop your ability to make connections, exercise more abstract judgment, and see an object beyond its form, colour or utility. Mismo opens the discussion to more abstract topics, stimulates cognitive functions and allows players to make connections between different things.

In short, Mismo is a simple, creative, fast and highly addictive game!

CONTENT:

- 48 OBJECT Cards
- 4 Customizable Cards
- 9 Game Rules Cards (French, English and Spanish)
- 1 GAME+ 3 VARIATIONS: Competitive, cooperative and a game adapted for younger players!

OUR DIY SCULPTURES

Cut, assemble and glue!

Created in collaboration with the Canadian company Sofs, here are our beautiful 3D sculptures inspired by the works of our talented artists!

This “DIY” activity combines the pleasure of assembling the pieces of a puzzle with folding origami to build a magnificent 3D work that will enhance the decor of your home, your office or your children’s room!

Each kit contains the instructions as well as the model parts numbered and printed on cardboard paper.

All that remains is to cut, fold and glue the different pieces!
