Living Forgiveness and the Sacrament of Confession

Written and Illustrated by Carissa Douglas

Pope Francis is on a mission is to encourage Catholics to celebrate the Sacrament of Confession. The Holy Father says God never tires of forgiving our sins, even if we get tired of asking. This deceptively simple book on confession for children will help them to look forward to the joy of having their sins forgiven, especially the hurts that happen in family life. This booklet is full of insights. It will encourage children and their parents to not be afraid of the Sacrament of Reconciliation. I am pleased to commend it.
