Trimmings and accessories are of a delicate structure and in general they should not be laundered, dry cleaned or immersed in water, however many tiebacks, tassels and fringes may benefit from a light steam treatment to restore their fullness after unpacking.

Certain trimmings may be suitable for dry cleaning with a minimum of agitation to avoid damaging their structure, please consult your dry cleaner for further advice. Trimmings are dry cleanable in tetrachloroethylene, trichlorotrifluoroethane (solvent 13), trichlorofluoroethane (solvent 11) and hydrocarbons (white spirit).

Sequins, metallic and iurex are suitable for dry cleaning in the solvents given above but are sensitive to some dry cleaning procedures for which there is a strict limitation on the addition of water during cleaning and/or restrictions concerning mechanical action and/or drying temperature.

Every effort is made to avoid variation from batch to batch. Several of our products are made from hand-made glass beads which may vary slightly in color and shape. In general, colors are dyed to a good standard of light fastness, but are not recommended for washing.

British Trimmings is a member of ACID. The style, design and colorway of all items are owned by British Trimmings and are protected under the laws of the UK and US.
