Wines can be purchased in either straight or mixed cases, but must be in configurations of 12-bottle (dozen) lots (sorry, we cannot send half-dozen lots or single bottles for international shipping).

Owing to a tax concession, international customers are entitled to a reduction in wine price, provided an overseas delivery address is nominated on your order.

Freight rates to overseas destinations are outlined in the table below (shown in Australian Dollars AUD). Air freight charges per case will reduce for multiple case orders. Timing of delivery can vary depending on air carriers' availability.
