

Nutri-Tech Solutions®

Soil Health and Your Wealth

Internationally-acclaimed nutrition and soil health specialist, Graeme Sait, is returning to Western Australia. If you have not previously heard Graeme share his wisdom, you are set for a real treat. Thousands of seminar attendees across the globe have described his presentations as “game changing” and “revolutionary”.

Upcoming Seminars

Sign up for a memorable learning experience at your closest 1-day seminar venue:

BOOK NOW for Soil Health and Your Wealth in Northam, WA – February 27th, 2017

BOOK NOW for Soil Health and Your Wealth Kojonup, WA – March 1st, 2017

BOOK NOW for Soil Health and Your Wealth in Manjimup, WA – March 3rd, 2017

About the Seminar

Neil Miles from WA company, Planted Passion, invites you to invest a day with Graeme, where informal Q & A sessions will be infused with problem-solving guidelines. You are encouraged to bring along soil tests, leaf tests and details of your major issues, and Graeme will strive to help.

This sought-after presenter lectures farmers and consultants in 30 countries each year. He shares invaluable secrets about improving the health of your soil, your crop, your livestock and your family. Don't miss this opportunity for a one-on-one session with a very special teacher.

Watch Graeme's popular TEDx talk (<https://www.youtube.com/watch?v=8Q1VnwcpW7E>) and you will understand what to expect.

Graeme Sait

Graeme is the CEO and founder of multi award-winning Australian company, Nutri-Tech Solutions (NTS). This company is Australia's largest exporter of sustainable ag inputs and is a recognised world leader in biological agriculture. Graeme is a sought-after teacher, who has trained over 30,000 farmers across the world. He consults at Governmental level in many countries and his popular weekly blog, “Nutrition Matters”, inspires many thousands. Graeme specialises in the intimate interrelationship between soil, plant, animal and human health. More recently, that emphasis has expanded to include planetary health, in recognition of the link between humus and carbon sequestration. He is also an author/educator responsible for over 300 published articles and a popular book, “Nutrition Rules”.

Graeme will help you to understand the secrets of managing minerals and harnessing soil biology as your hidden workforce. His expansive knowledge will guide you to increased efficiency, enhanced profits and less problems. Most importantly, Graeme farms himself and he loves farmers. In his words, “In the 30 countries I visit each year, my central goal is to return a smile to the face of farmers. Food producers are the most important professionals on the planet and they need to be nurtured”.

Course Content

These seminars will be dedicated to addressing some of the major issues challenging WA farmers. Each of the three 1-day courses will contain six separate sessions, each involving a stimulating presentation followed by a 20-minute Q & A session. This structure is designed to ensure maximum benefit for those seeking guidance. You are encouraged to bring along soil tests, leaf tests and details of your major issues, and Graeme will strive to help. Don't miss this opportunity for a one-on-one session with a sought-after presenter, who lectures farmers and consultants in over 30 countries each year.

Seminar topics include the following:

1. Humus Saves The World

- **Build humus to reclaim farming fun, boost profits & reduce problems.**

2. The Bounty of Biology

- **Unlock your soils, increase your yields and cut your stress with soil-life.**

3. WA Farming Solutions

- **Dry soils, sodium, clay, seed treatment, aluminium, non-wetting, etc.**

4. Health is Happiness

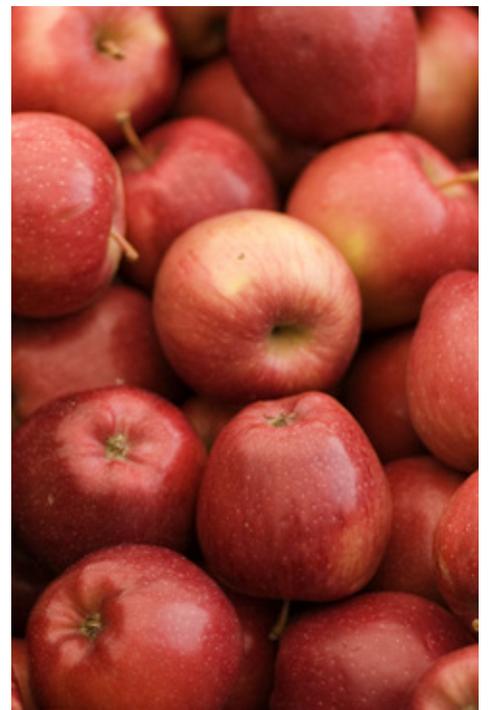

- **Invaluable tips for a longer, healthier, happier life for you and your family.**

5. The Magic and Myth of Cover Cropping

- **Cocktail cover crops transform in a single season.**

6. Precision Farming

- **Reducing the fertiliser and chemical bill by monitoring and understanding.**

10 Reasons to Attend

1

This a rare opportunity to hear an acclaimed, inspirational speaker.

2

You will discover an array of profit building tools. NTS has identified multiple strategies to build yield and efficiency.

3

To comprehend key ratios in the soil and plant to build production and resilience.

4

To increase your crop and soil monitoring skills and improve yield and quality.

5

To understand the secrets of harnessing soil biology as your hidden workforce.

6

You will be better equipped to handle the impact of peak oil, climate change and economic issues.

7

You will be given invaluable information to improve your own health and that of your farm.

8

To gain an in-depth understanding of the relationship between nutrition and pest pressure.

9

This course will help you understand that Nutrition Farming® is the shape of the future.

10

To learn cutting-edge strategies to improve the health of your farm, your garden, your planet and yourself.

Comments from Previous Seminars

“Graeme brings a wealth of knowledge backed up with real life experience, which is unequalled around the world. Ongoing practical and achievable solutions for human, farm and the planet’s problems, this message needs to be heard in every home, farm and government agency!” ”

- Alan Richardson

“A fabulous, inspiring and informative course. I would recommend this course to anyone interested in soils, plants, nutrition and themselves!”

- Robin Wing

“I have sat through a lot of OHS and induction presentations. This has been the most engaging and informative course I have ever attended. I’ve invested in myself and my family’s wellbeing. Thank you!”

- Damien Elworthy

“Great work guys. Such informative and passionate presentations. It was thoroughly enjoyable and inspiring throughout. This has changed my views on so many aspects of how I approach both agriculture and my own health.”

- Casey White

“Graeme – I would like to thank you from the bottom of my heart for the knowledge, energy and power you have so graciously and unselfishly passed on to all of us.”

- Jason Reimers

“Graeme – following your recent near death experience it seems clear to me that God has a plan for your knowledge, inspiration and passion to be spread far and wide. May it serve to usher in a new paradigm as the current system crumbles under the weight of ignorance.”

- Chris

“We were so privileged to attend his course in New Zealand last year, and feel that it is so important to have other people share in this unbelievable input and insight. After all we are what we eat....we are what we drink and we are what we think!!!”

- Margot Isted
