

## Goalie Templates

- Butterfly style Goalie, who wants to get quicker.

**Detroit 2** Profile combination of 10'-20'. The shorter front radius improves agility when performing in/out and up/down movements.

**Goalie Win** Profile combination of 24'-28'. Smoother transition and a good start when moving from a single radius. Same as Detroit 2, but adding stability while sacrificing some agility.

- Skilled goalie that wants to control all postures.

**Zuperior V** Combination profile 6'-17'-26'. Very short front radius for light weight goalies and shorter blade sizes.

**Goalie Sam** Combination profile 10'-50"-27'. A triple combination with a glide surface in the middle that supports the modern goalie needs. Most popular amongst butterfly goalies.
