

Rainbow String Game

'Hand Catch' Instructions

Position 1: Pick up one short section of the string loop on both thumbs without twisting it. Extend hands apart. The string now goes from one thumb to the next. The string closest to you is called the near thumb string, and the farthest one is called the far thumb string. Using your little fingers, pick up the far thumb string. Spread your hands apart to tighten the string. This is position 1.

Opening A: Do position 1. Using your right index finger, pick up the left palm string on the back of your forefinger. Use your left forefinger, going through the right forefinger noose, and pick up the right palm string. Tighten strings and keep your palms facing towards each other (this is something you should do after each step unless otherwise told not to). This is Opening A

Hand Catch: Do Opening A. Hold your hands out towards someone. Have them put one hand through the center of the figure. Now release the strings on both little fingers and forefingers, but keep the strings on the thumbs. You have now caught the other person's hands.
