

LED Solar Wall Pack Lights

HY06WSRB

Smart LED solar wall lamp with PIR sensor

- Solar Panel: monocrystalline
- Battery: Li-ion 3.7V 2200 mAh
- Smart lighting: 3W
standby 75lm + motion 500lm x 25s x 100 times
- Switch: On/off
- Detection range: Max. 8m
- Detection angle: 90°

- Production size: 18.8x16x4cm

The lamp will produce a dim constant light at night of 75lumens.

On detection of motion the light output will increase to 500 lumens lasting for 25 seconds. After this time the lamp will revert back to 75 lumen constant light until motion is detected again.
