The Scarab Murder Case

PHILO VANCE #5

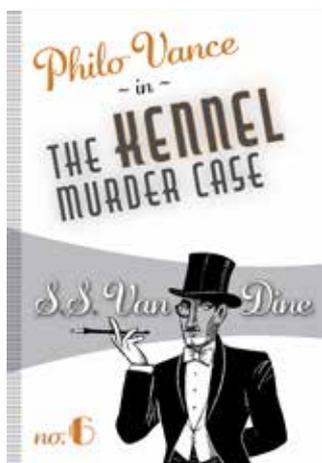

BY S.S. VAN DINE

In the 1920s, the world went Egypt-crazy, and even Philo Vance, that eminent scholar-sleuth, has some sympathy for the fad—though of course he knows lots more about the topic than anyone else. When a wealthy Egyptologist is murdered, with mysterious inscriptions and artifacts dotted round, it's only natural that John FS Markham calls Philo for help. After all, Markham is merely the New York District Attorney, whereas Philo Vance is...well, Philo Vance.

- “With his highbrow manner and his parade of encyclopedic learning, Philo Vance is not only a detective; he is a god out of the machine.” —*New York Times*

The Kennel Murder Case

PHILO VANCE #6

BY S.S. VAN DINE

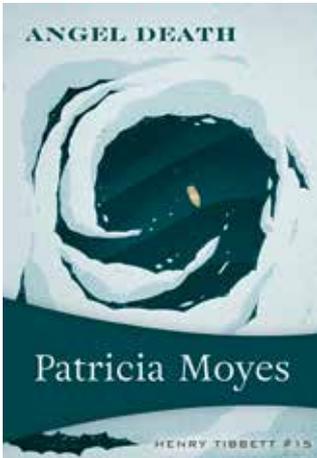

Given all the rich people getting bumped off in Philo Vance's Manhattan, it's amazing there are enough left to support the symphony. Latest up: Arthur Coe, found dead in his own locked bedroom. Suicide? The ever-perceptive Philo doesn't buy that theory for a second. The presence in Coe's house of a strange, prize-winning terrier only adds to the mystery, although Philo's fabulously in-depth knowledge of dogs does not in fact solve the crime; his fabulously in-depth knowledge of the murder of the Empress Elizabeth of Austria in 1898 proves much more useful.

GoodMysteries.com, dedicated to the art of the classic whodunit, calls *Kennel* “one of the best locked-room setups ever written.”

Angel Death

HENRY TIBBETT #15

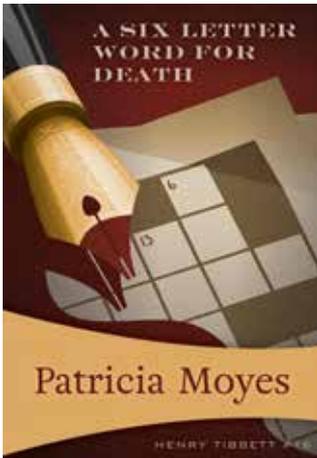

BY PATRICIA MOYES

Fans of Emmy Tibbett, have we got the book for you! Vacationing with friends in the Caribbean, Emmy and Henry meet a sprightly and delightful spinster who spins a yarn about a young woman lost at sea and then (perhaps) found again. The yarn gets yet more fascinating when the spinster herself disappears, and Henry—wry, unflappable Henry Tibbett of Scotland Yard—responds in a most uncharacteristic fashion. It's up to Emmy to untangle the clues, contending with drug smugglers on the one hand and an addled husband on the other. And did we mention the hurricanes? Emmy, of course, has resources to spare, so much so that we wish we could bring her back for a series of her very own.

- “Carrying on the tradition of the classic British mystery... this is Patricia Moyes at her best.” —*New York Times*

A Six-Letter Word for Death

HENRY TIBBETT #16

BY PATRICIA MOYES

It's a slow day at Scotland Yard, so Inspector Henry Tibbett takes a busman's holiday, immersing himself in the world of puzzling puzzlers. The hijinks kick off with an amusing gift: Someone unnamed has sent Henry the *beginnings* of a crossword puzzle.

Even more mysterious: The clues point to the group of mystery writers to whom Henry has pledged to give a presentation. Most mysterious of all: None of the writers are who they claim to be, and one is a murderer. Which one? For that you'll need to solve the puzzle. Six across and then down, down, down.

- “Considerable charm, atmosphere, and English geniality” —*Kirkus*

What Would Wimsey Do?

A MYSTERY OF THE NOT-QUITE GOLDEN AGE

BY GUY FRASER-SAMPSON

ABOUT THE BOOK

A series of ugly killings has shattered the orderly workings of the Hampstead police station. And truth be told, they have shattered the confidence of the lead investigator on the case, who has long taken pride in his old-school “copper’s nose.” When yet another body turns up, he’s forced to give way to a new chief with fancy new detecting techniques. But when those, too, prove unequal to the task, the police are stymied. So they reach back to the past, invoking the skills of one of the great Gentleman Sleuths. Is this nutty? No doubt. But Lord Peter Wimsey always got his man.

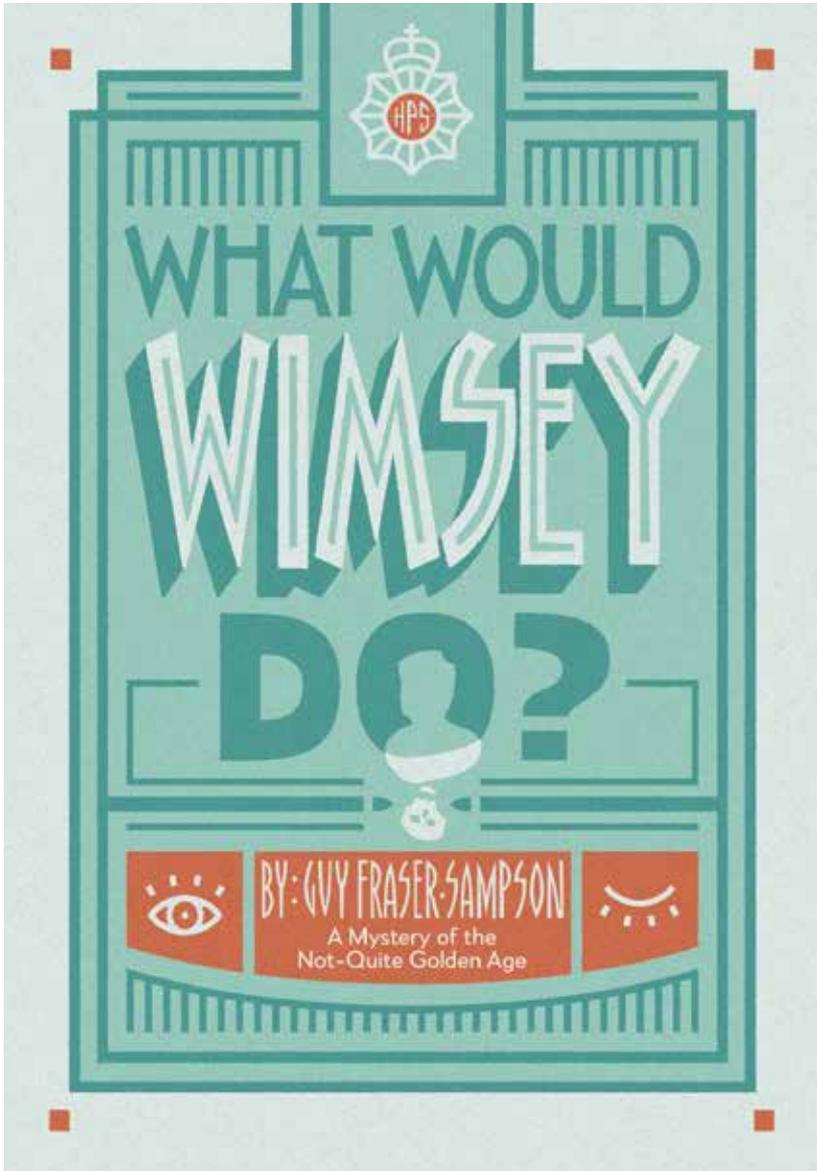

In what has been called a “love letter to the traditional mystery novel,” Fraser-Sampson brings the Golden Age of Detective Fiction back to glorious life. It’s a bit scuffed, perhaps, by its mashup with the 21st century, but even the baddest of contemporary bad guys must quake before the might of a witty epigram.

READERS (AND REVIEWERS!) LOVE WIMSEY

Half Moon Street

A LEO STANHOPE MYSTERY

BY ALEX REEVE

ABOUT THE BOOK

Like half the young men in London, Leo Stanhope is rich in dreams but poor of pocket. He dreams of making a home with Maria, the woman he loves. He dreams of a life far from the blood and stink of the morgue where he works. And he dreams of a world where no one cares what is tucked between his legs. Because Leo has a secret. And in Queen Victoria's England, that secret could get him locked up for life...if nobody kills him first.

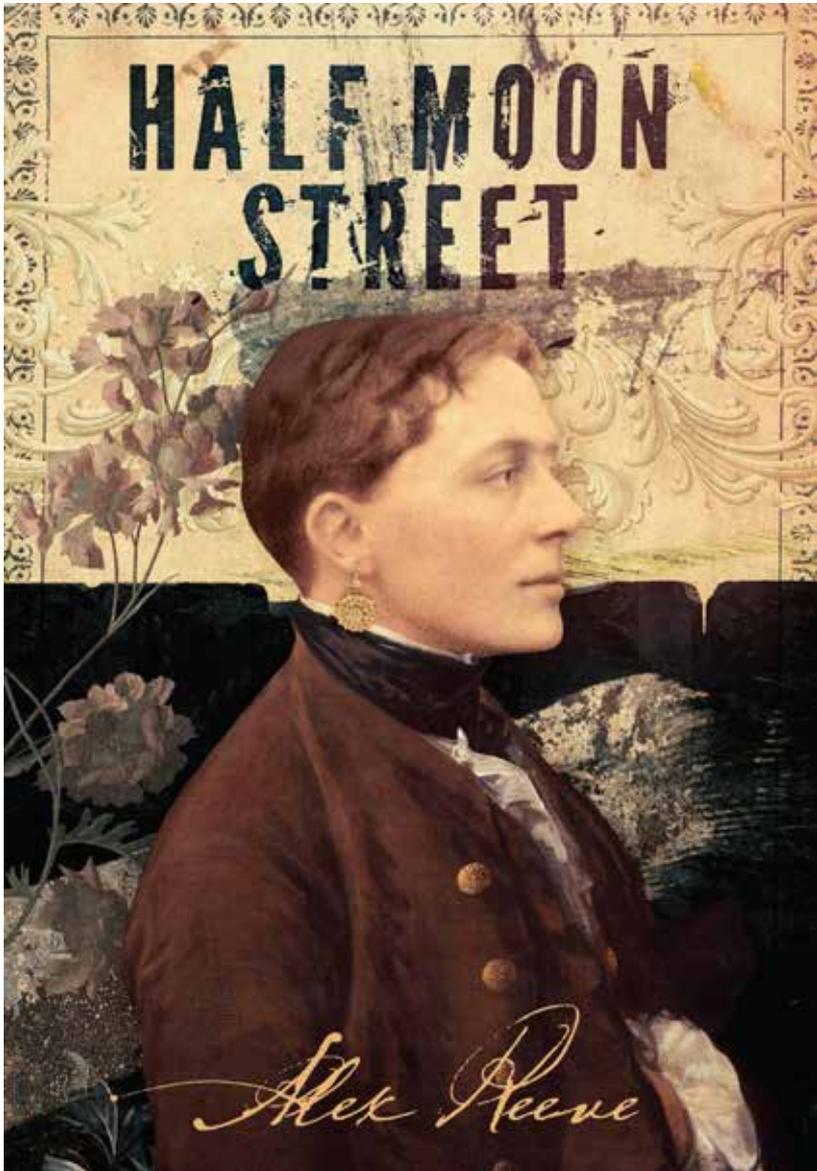

But it's a prostitute who's killed instead, and Leo who becomes the prime suspect. Desperate to clear his name and find the murderer, Leo is forced to sacrifice his books, his job, his home. Sherlock Holmes meets #MeToo

All Roads Lead to Whitechapel

A BAKER STREET INQUIRY

BY MICHELLE BIRKBY

ABOUT THE BOOK

Behind every great man is a great woman...? Maybe so, but the women in Sherlock Holmes's life are tired of toiling in his shadow. Matters come to a head when the Great Man declines to help a desperate young bride, prompting Mrs. Hudson (Holmes's housekeeper) and Mary Watson (wife to the good Doctor) to set up a sleuthing shop of their own, operating out of the kitchen at 221B Baker Street.

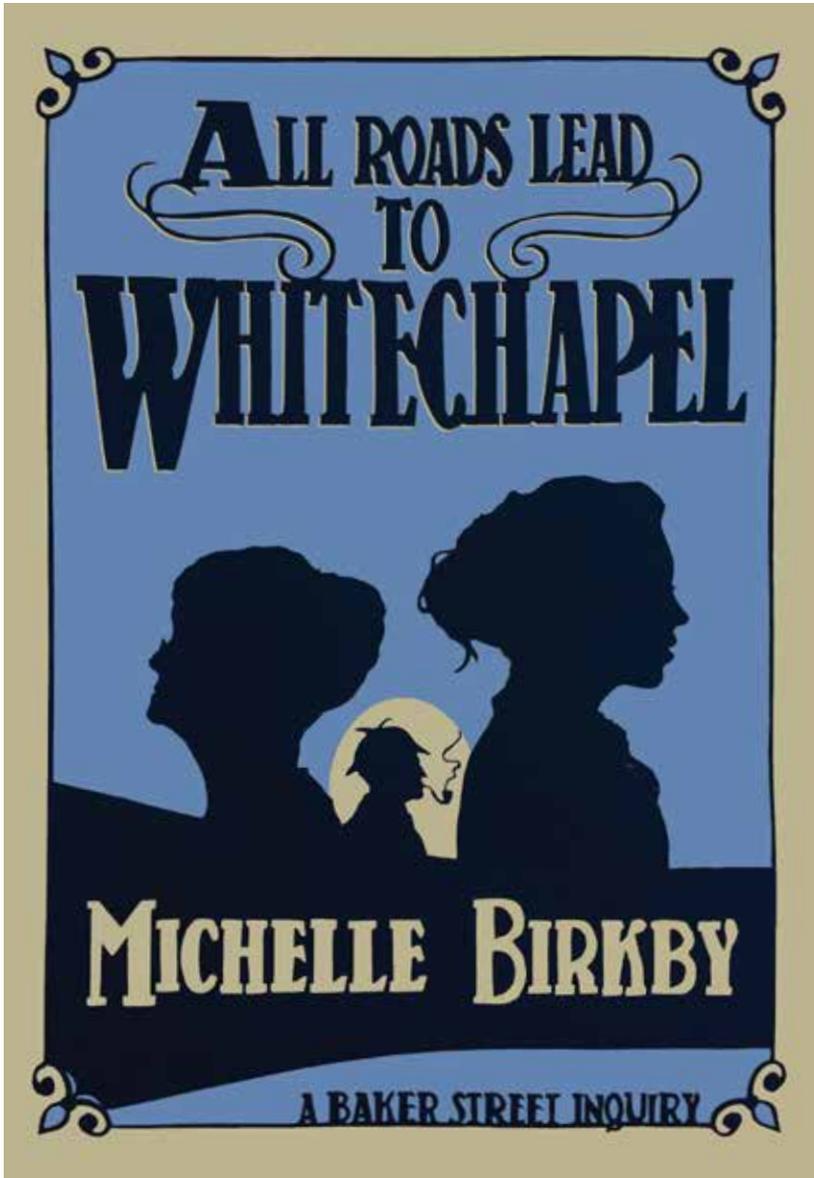

Every clue they untangle leads to, yes, the grim slums of Whitechapel, where Jack the Ripper appears still to be busy with his carving knives. The shadow of evil looms much larger than Mary and Mrs. Hudson imagined when they hatched their plans at the kitchen table. But with so many women in terrible danger, it seems only appropriate that it's women who will set things right.

PRAISE FOR MICHELLE BIRKBY

Acts of Murder

KARL ALBERG #9

BY L.R. WRIGHT

The ninth and final book in the Karl Alberg series makes a wonderfully elegant end to the saga of the tiny town on Canada's "Sunshine Coast," the policeman who tries to catch the town's baddies, and the sensual, smart-mouthed librarian he loves. But don't be fooled by all the sunshine: Sechelt harbors more dead bodies than any small town outside of Cabot Cove, and the serial killer who's busy knocking off the residents—and their children!—is one of the darkest characters in the Alberg canon. It's always hard to say goodbye, but this series ends on a brilliant and supremely satisfying note.

The Greene Murder Case

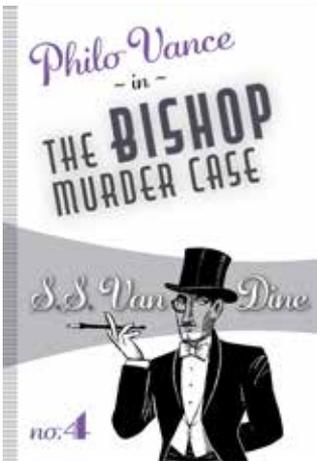

PHILO VANCE #3

BY S.S. VAN DINE

Members of the Greene family keep dying while the pool of possible perpetrators keeps shrinking (although the servants, each one weirder than the next, remain in the pink of health). Philo Vance—the independently wealthy, staggeringly brilliant, not remotely modest (and did we mention handsome?) amateur sleuth—uses his detective skills to unravel the murders, though sadly not before most of the Greene family has been bumped off.

First published in 1928, *Greene* topped the year's bestseller lists, and was made into not one, not two, but an astonishing three films, the first starring William Powell, and the second somebody named Grant Richards. The third, a made-for-TV movie, came out just 16 years ago...in the Czech Republic. That's our Philo, the Sleuth the World Loves to Hate.

The Bishop Murder Case

PHILO VANCE #4

BY S.S. VAN DINE

After solving the Greene murders, Philo Vance has taken a well-earned holiday in Switzerland. Returning to New York City he finds his old chum District Attorney Anthony Markham up against a bizarre series of murders inspired by children's nursery rhymes. The first murder, involving a beautiful young woman and a private archery range, was apparently based on "Who Killed Cock Robin?"; it is followed by more hideous deaths referencing "Mother Goose." But Philo Vance is not a man to be fobbed off with points to juvenilia. Markham and his colleagues may be worried that a certain Mr. H. Dumpty is riding for a great fall, but Philo Vance suspects a connection to a rather more sophisticated writer.

The Coconut Killings

HENRY TIBBETT #13

BY **PATRICIA MOYES**

What could be more idyllic than a Caribbean vacation at a golf resort? Maybe a vacation that isn't rudely marred by a murder, especially one that seems to have been committed by the resort's friendly bartender. The murder only serves to heighten the tensions—already plenty high—between the native islanders and the very pale people enjoying the resort, so Henry Tibbett is called in to pour some soothing British oil on the troubled waters. Where Henry goes, of course, trouble follows, here in the form of a rash of increasingly disturbing outbreaks of vandalism. Political passions coming to a head? Or something more grubby and sinister?

Who Is Simon Warwick?

HENRY TIBBETT #14

BY **PATRICIA MOYES**

Lord Charlton, that wealthy old geezer, has shuffled off this mortal coil, leaving all his dosh to his nephew, Simon. Problem is, nobody has actually seen Simon since he was a baby, adopted by Americans after his parents were killed in an air raid. And with all that lovely lolly at stake, it is perhaps not surprising that more than one "Simon Warwick" turns up to claim the cash. Enter Henry Tibbett, charged with sorting the real Simon from the false—a task made no easier when one of the "Simons" turns up dead. The question of whodunit is relatively easy to solve, but the identity of the real Simon rests on a plot twist that even the canniest mystery fan is unlikely to see coming.

The Second Woman

DENTON #3

BY **KENNETH CAMERON**

It's 1901, and with the Boer War raging, England's air is crackling with political intrigue. The rumors are so thick that the newly formed British Secret Service—formed in fact to deal with the rumors—can barely keep a lid on. But it's not South Africa that is on everyone's lips. Rather, it's The Jewish Question: The armies of Anti-Semitism are on the march, even as the call to Zionism echoes ever more loudly through London's East End. It's all largely academic for Denton until his neighbor is murdered, and all signs point to the growing conflict between the Jews and those who hate them. He could stay out of it. He should stay out of it. But...he rather liked the woman. And the police are clueless. So Denton yet again sticks his pointy American nose into England's business. And he keeps it there, even as the price for asking questions grows higher every day.

The Haunted Martyr

DENTON #4

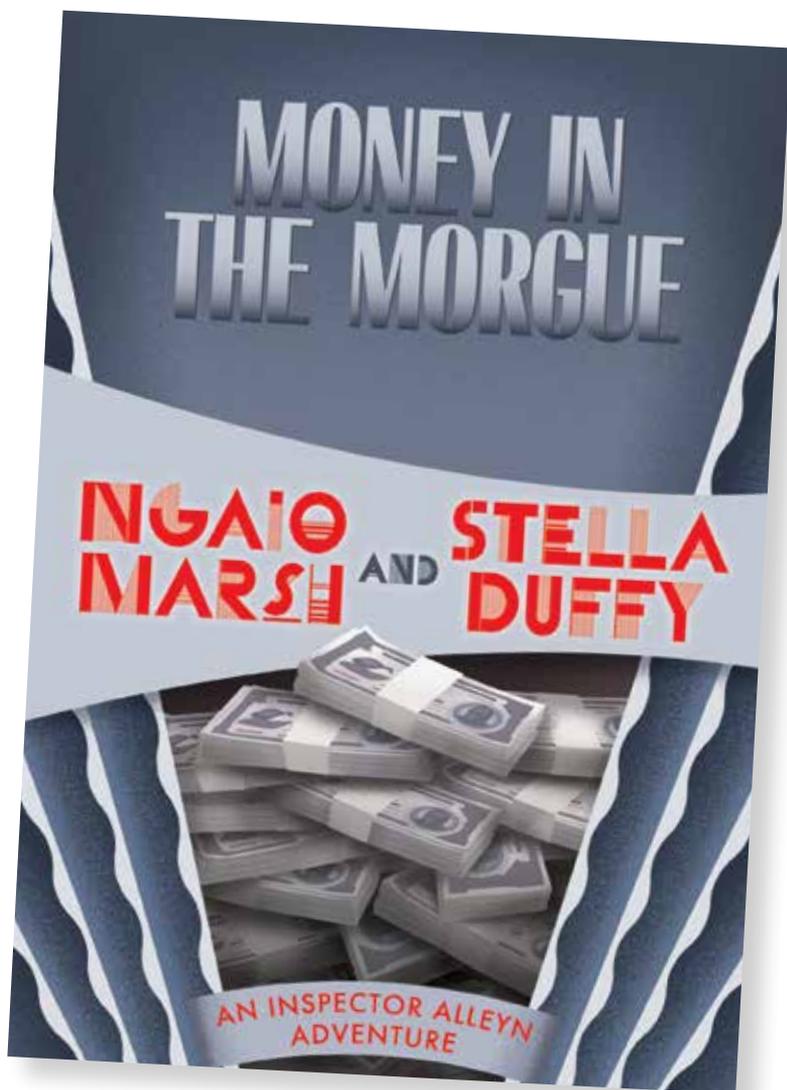

BY **KENNETH CAMERON**

England in the chilly winter of 1902 is captive to a new craze: Mediums and psychics are springing up like toadstools after a rainstorm, and the public is rushing to consult them, frantic for intimations of the Great Beyond. No surprise, ex-pat Denton has his doubts: A Yankee to his cotton socks, he is a walking representative of the “Show Me” state. Nevertheless, he’s agreed to write a book about ghosts and hauntings, so he takes himself to Italy to do it.

Napoli may be *bella*, but it offers Denton only boredom and frustration, until a dead body—a real one, made of blood and bone rather than ectoplasm—shows up to make life interesting. Even more interesting? The murderer looks to come from among Denton's new circle of oh-so-spiritual friends.

- “Sure to appeal to readers who love historical mysteries intertwined with the edgy interpersonal relationships found in Anne Perry's work.”

A NEW INSPECTOR ALLEYN ADVENTURE Just 36 Years in the Making!

Money in the Morgue

BY NGAIO MARSH & STELLA DUFFY

ABOUT THE BOOK

Inspector Alleyn just wants to write a letter to his wife, but World War II keeps intruding. It's war-work that has brought Alleyn to this seedy hospital in New Zealand's hinterlands, and it's the war that has left the hospital swimming in convalescing soldiers—noisy, often drunk, and always over-interested in the nurses.

Nor is the weather helping. A storm has killed the electrical power, leaving Alleyn et al. stranded in the dark...with a murderer. It's a good thing for everyone, including the reader, that there's a Scotland Yard detective on hand.

THE CRITICS LOVE *MONEY IN THE MORGUE*

- “Duffy does an excellent job building a taut, atmospheric whodunit...[her] facility at injecting wit into fair-play detecting will make Marsh fans hope she'll continue the series.”
—*Publishers Weekly* (starred review)
- “Features subtle humor and a remarkably complicated and satisfying plot, very much in the Golden Age tradition of Agatha Christie” —*Booklist* (starred review)
- “Duffy captures Marsh's style, dialogue and mood brilliantly” —*The Times* [of London]
- “It's *A Midsummer Night's Dream* with corpses, clues, and Kiwi accents! Ingenious indeed!”
—*The Spectator*

ABOUT THE AUTHORS: Dame Ngaio (“NYE-oh”) Marsh was born and grew up in New Zealand, and moved to England in the late 1920s. Bored and out of sorts on a wet weekend, she wrote *A Man Lay Dying*, first of 32 novels featuring Inspector Alleyn of Scotland Yard. The series would eventually see her named one of England's “four queens of crime,” and earn her both a “Grand Master” award from the Mystery Writers of America and, in 1966, the title of Dame Commander of the British Empire. Marsh died in 1982, leaving behind both a passionate fan-base and the opening chapters of...*Money in the Morgue*.

Like Ngaio Marsh, Stella Duffy has been a celebrated actor and theatrical producer, as well as a playwright, but she is best known as a novelist, the author of five crime novels featuring lesbian private-eye Saz Martin, and nine works of literary fiction. In 2016 Duffy was made an Officer of the Order of the British Empire in recognition of her services to the arts.

A DELIGHTFUL SCOTTISH DEBUT Time-Travel, Tartan-Style

Miss Blaine's Prefect and the Golden Samovar

BY OLGA WOJTAS

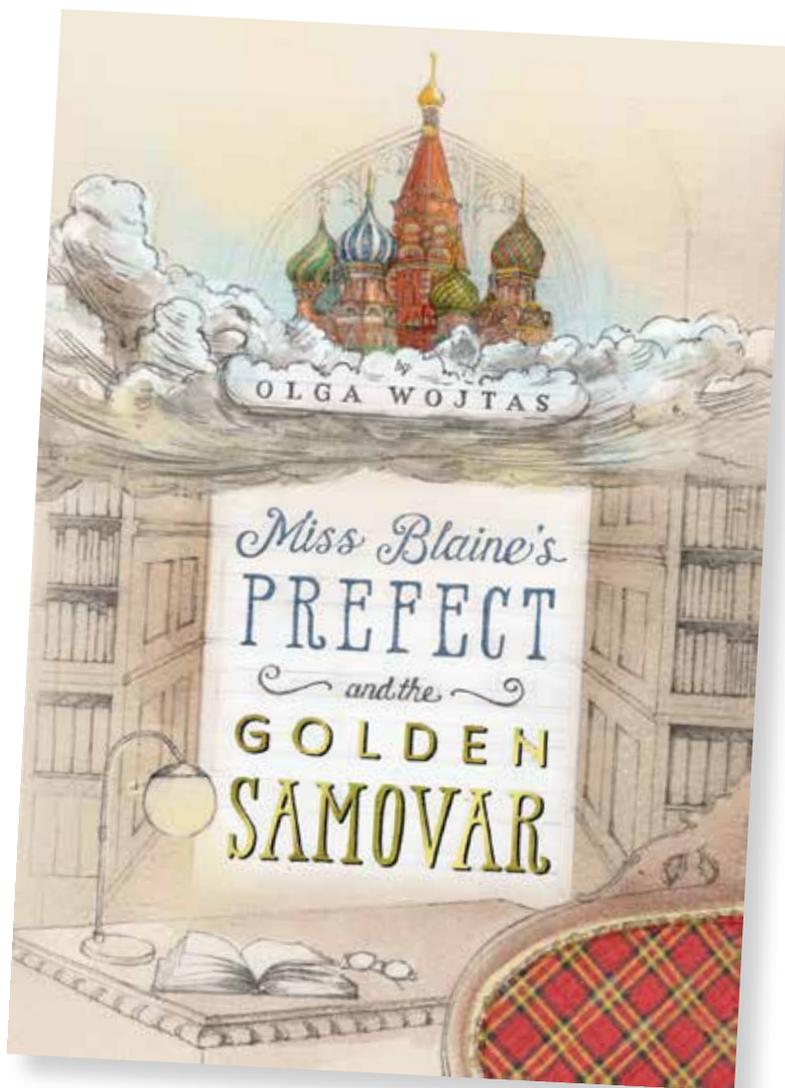

ABOUT THE BOOK

Never underestimate a librarian.

Comfortably padded and in her middle years, Shona McMonagle may look bookish and harmless, but her education at the Marcia Blaine School for Girls has left her with a deadly expertise in everything from martial arts to quantum physics. It has also left her with a bone-deep loathing for *The Prime of Miss Jean Brodie*, that scurrilous novel that spread scandalous untruths about the finest educational institution in Edinburgh. Her skills, her deceptively mild appearance, and her passionate loyalty make Shona the perfect recruit for a new and interesting project: Time-travel to Tzarist Russia, prevent a gross miscarriage of romance, and—in any spare time—see to it that only the right people get murdered. It's a big job, but no task is too daunting for a Head Girl from Miss Blaine's.

GUIDE TO THE CATEGORIES

Most mystery readers we know have fairly specific tastes, so we've divided the Felony & Mayhem line into categories. To make it easier for you to find books that match your tastes, we're including an "icon" on the cover of every Felony & Mayhem title, to identify the category of that particular book, as follows:

BRITISH Set in or around the UK, these feature the highly literate, often witty prose that fans of British mysteries demand.

ESPIONAGE Spies, spooks, and conspiracy theories, from World War I to the present.

FOREIGN Intricately observed, richly atmospheric settings anywhere in the world outside of England and the U.S.A.

HARD BOILED Mean streets and meaner bad guys, with a cop or a PI usually carrying the story and landing a few punches besides.

HISTORICAL From the Ancient World to the 1940s, and everything in between.

TRADITIONAL Classy cozies with little gunplay or gore, but often a fair amount of humor and—always—an intrepid amateur sleuth.

VINTAGE Originally published prior to about 1965, these promise the kind of twisty, ingenious puzzles beloved by fans of Agatha Christie.

WILD CARD We can't promise these will press particular buttons, but we do guarantee they will be unusual, well written, and worth a reader's time.
