How To Thread Buckles
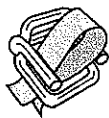

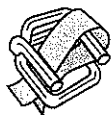

**1** Form a 3" loop by folding strap away from you. With buckles tines facing right, pass loop up through center of buckle.

**2** Slip the loop over front tine (Farthest from you).

3 Pull strap down and away.

4 Place a strap around package. Form a new loop by folding strap towards you.

5 Slip new loop over other tine.

6 Tension, by pulling on strap coming from coil.
