Fort Scott Munitions' (FSM®) 223 Rem SCS® (TUI™) ammo has a match grade projectile made of solid copper and engineered to Tumble Upon Impact™ (TUI™) providing devastating stopping power. Designed with military grade hard primers. Our #1 priority is the safety of our customers. Slam fire is a slim-chance but we have experienced this in our testing.

Matchless Hunting Performance

If you are a hunter, you know that pinpoint accuracy is crucial in the field. That is why 223 Rem SCS® (TUI™) ammo is manufactured from the highest quality components, to ensure consistently superior performance over other hunting ammunition. When you only have one shot- make it count.

Made to deliver significant soft tissue damage and bring your target down quickly, FSM® (TUI™) ammo has excellent weight retention and penetration. The Tumble Point™ action assures a swift, humane kill with every well-aimed shot. Perfect for shooting varmints, small to mid-sized game and predators, the uniquely crafted and patented shape delivers unbeatable precision.

Solid Copper - Ethical and Effective

You can hunt and shoot all day using the 223 Rem SCS® (TUI™). Recoil is light without sacrificing the velocity you need for hunting game at medium to longer distances. These qualities make the 223 Rem SCS® (TUI™) ideal for hunters of lighter frame and smaller physical stature.

Enjoy the freedom to hunt anywhere because these solid copper spun projectiles can be used where lead ammo is prohibited. You can pursue game ranging from prairie dogs to hogs and deer with confidence, courtesy of the unfailing terminal effectiveness of the 223 Rem SCS® (TUI™). This match grade ammunition has what it takes to get results with every squeeze of the trigger.

Decisive Performance in Offense and Defense

Not restricted to hunting, the 223 Rem SCS® (TUI™) is a great ammunition choice for defense and security. If you utilize a rifle for home defense, this ammo provides the accuracy and terminal performance to give you peace of mind. FSM® (TUI™) ammo has the power to end a home assault fast.

See Ballistic Brilliance in Action

Witness the ballistic superiority of the Tumble Upon Impact™ (TUI™) design for yourself. Take a look at our 223 Rem SCS® (TUI™) ballistic gel test video. Our R&D team works tirelessly to bring you ammunition that transcends traditional designs. As a result, you can be sure that 223 Rem SCS® (TUI™) ammo won't fail you when performance matters most.
