Fort Scott Munitions' (FSM®) 308 SCS® (TUI™) ammo is a match grade projectile made of solid copper and engineered to Tumble Upon Impact™ (TUI™) to provide devastating stopping power. While designed as precision ammo for the rifle hunters, the high performance qualities of the FSM® (TUI™) ammo make them ideal rounds for home and self-defense or law enforcement.

Matchless Hunting Performance

If you are a hunter, you know that pinpoint accuracy is crucial in the field. That is why 308 SCS® (TUI™) ammo is manufactured from the highest quality components, to ensure consistently superior performance over other hunting ammunition. When you only have one shot, make it count. Made to deliver significant soft tissue damage and bring your prey down quickly, FSM® (TUI™) rifle ammo has excellent weight retention and penetration. The Tumble Upon Impact™ (TUI™) action assures a swift, humane kill with every well-aimed shot. Perfect for shooting varmints, small to mid-sized game and predators, the uniquely crafted, patented shape delivers unbeatable precision.

Solid Copper - Ethical and Effective

Enjoy the freedom to hunt anywhere. These solid copper spun projectiles can be used where lead ammo is prohibited. You can pursue game ranging from prairie dogs to hogs, deer and black bear with confidence, courtesy of the unflinching terminal effectiveness of the 308 SCS® (TUI™). This match grade ammunition has what it takes to get results with every squeeze of the trigger, even at great distances.

Decisive Performance in Offense and Defense

Not restricted to hunting, the 308 SCS® (TUI™) is a great ammunition choice for defense and security. This popular round used by law enforcement offers pinpoint accuracy at close or long range distances. With the Tumble Upon Impact™ (TUI™) design, this ammo is effective in any situation.
