Fort Scott Munitions' (FSM®) 7.62x39 SCS® (TUI™) rifle ammo is a match grade, solid copper projectile, uniquely developed to Tumble Upon Impact™ (TUI™) and provide decisive terminal effects in any situation. Designed with military grade hard primers. Our #1 priority is for the safety of our customers. Slam fire is a slim-chance but we have experienced this in our testing.

Tag the Trophy - Every Hunt

As a hunter, you need precision ammunition which won't limit your potential. You fire only a few critical rounds per season, every shot has to be spot on. That's why 7.62x39 SCS® (TUI™) rifle ammunition is constructed from superior quality projectiles, casings, powder and primers to ensure dependable and consistent performance you can count on. Designed to maximize soft tissue trauma and stop your quarry fast, FSM® (TUI™) long distance rifle ammo has the weight retention to penetrate deeply into vital organs. The Tumble Upon Impact™ (TUI™) action delivers a fast, humane kill. Ideal for varmint control and hunting small to medium game, the uniquely developed, patented spitzer shape delivers superb precision, even at longer ranges.

Ethical High-performance Ammo

You can shoot all day without soreness and fatigue using 7.62x39 NATO SCS® (TUI™) ammunition. The round is designed for light recoil with no sacrifice in velocity. These benefits make this ammo the perfect choice for smaller hunters and shooters. Because of their solid copper spun construction, these bullets can be used wherever lead projectiles are prohibited for sport shooting. You can target varmints and game ranging from wood chucks to coyotes and hogs with confidence, thanks to the potent terminal performance of the 7.62x39 SCS® (TUI™). These bullets provide a definite ballistic advantage to ensure you get the most from every hunting expedition.

Terminally Decisive Enforcement and Defense

In addition to field use, the 7.62x39 SCS® (TUI™) is also a great self-defense round. If you own a rifle such as the AR-15 for defense purposes, this ammunition is your ideal choice. In a critical situation, you can't afford to think twice. Ideal for law enforcement as well, the 7.62x39 SCS® (TUI™) with its patented design to Tumble Upon Impact™ (TUI™), ensures maximum tissue damage from a single round.
