

ring size guide

We offer a ring-sizer that can be shipped directly to you! Search "ring sizer" and you will find it. If you're ready to order a ring now and want to find your size, you can print this sheet, at 100% scale (not stretch to fit!). *Please ensure this by laying a penny on size 9.5 below.*

Please note: ring size may vary slightly depending on the style of the ring.

a perfect fit

If you have a ring that is already the perfect size, place it over a circle to find its size. The circle should fit inside of your ring. If it falls between two sizes, size up.

measure your finger

If you'd like to measure your finger, cut along the dotted lines including the line below our logo. Slip the pointed end through the slit to make a loop and slip it on the finger you'd like to measure. Tighten the the loop around your finger where you want your ring to sit. If it falls between two sizes, size up.
