

Stainless Steel Cleaner & Polish (water-based)

DESCRIPTION: High performing, advanced technology, solvent-free cleaner and polish for stainless steel, aluminium and chrome surfaces. Cleans and polishes any metal surface without leaving a residue or build-up. Prevents fingerprints and watermarks. Leaves a protective coating with a smooth finish, with no oily film and prevents surface deterioration. Contains no abrasives, solvents, or VOC.

DIRECTIONS:

1. Before first application, use soap and water to remove greasy film left by other cleaners.
2. Shake well and dispense a small amount onto clean lint-free cloth.
2. Apply to one area at a time, using a small circular motion.
3. Buff with another clean lint-free cloth.

CAUTIONS: **KEEP OUT OF REACH OF CHILDREN.**
Avoid contact with eyes and skin. In case of contact, rinse with water.
Store in a dry cool place.

Colour: Creamy white
Fragrance: Mild
pH: 7.0 - 8.0
