

MATERIAL SAFETY DATA SHEET

According to Regulation (EC) No. 1907/2006 (changed by Regulation (EC) No. 453/2010)

1. Product identification

Product name: Absolute Retention Superbonder

Issued on: 23.03.2020

Revised on:

Valid from: 23.03.2020

Version: 01

2. Identification of the substance/preparation and of the company

Product identifier

Solution to accelerate the curing of glue for artificial eyelashes.

Relevant uses

Adhesive dryer accelerator for faster curing of eyelash glue

Uses advised against

None known.

Details of the supplier of the safety data sheet

Manufacturer:

3. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EC Cosmetics Directive). The following information applies to inadvertent misuse or accidents as well as possibly to commercial uses.

Composition/information on ingredients

Chemical characterisation

Aqueous solution with functional ingredients (see section 3.2)

Ingredients

AQUA,
ALCOHOL DENAT,
PENTYLENE GLYCOL,
SODIUM CHLORIDE,
HYDROXYETHYLCELLULOSE,
PVP,
PARFUM (FRAGRANCE),
HYDROXYCITRONELLAL,
LIMONENE.

5. First aid measures

Measures in the event of:

Inadvertent contact with eyes: rinse thoroughly with plenty of lukewarm water immediately; if irritation persists, consult ophthalmologist as a precautionary measure.

(Continued on following page)

6. First aid measures (*continued*)

– Inadvertent ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one glass of water. Where appropriate, consult Poison Control Centre or doctor.

When consulting a doctor or a Poison Control Centre always have packaging or label and possibly package insert available.

7. Fire fighting measures

All common extinguishing agents are suitable.

8. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up main volume with cloths; when larger amounts are involved, dispose of cloths and mopping up material by controlled disposal – risk of fire. Remove rest with plenty of water and common cleaning agent.

Do not bring it into the eyes undiluted.

Packaging should be recycled after residual emptying. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

9. Handling and storage

Must be used in accordance with manufacturer's instructions. Observe any warnings on packaging. Store in a cool and dry place (room temperature).

10. Exposition limitation and personal protective equipment

Exposition limit value:

No limit value which is to be controlled is defined.

Hints for the arrangement of technical equipment:

No further indication necessary

Personal protective equipment:

Not necessary

Breathing protection:

Not necessary

Hand protection:

No special protective gloves necessary

Body protection:

No special protective measures necessary

11. Physical and chemical properties

9.1 Information on basic physical and chemical properties

Form: solution

Colour: clear

Odour: characteristic

Change of condition:

Melting point/area: not available

Boiling point: not available

Flashing point: not available

Ignition Temperature: not available

Explosion limits: not available

Vapour pressure: not available

Density (d₂₀/20): 0.97 – 1.01 g/ml

Water solubility: soluble

Viscosity: not available

pH-value: 6.5 – 7.5

12. Stability and reactivity

Dangerous decomposition products:

None, in the case of correct treatment and storage

Thermal decomposition:

No decomposition if used correctly

Substances to be avoided:

No dangerous reactions known

13. Indications on toxicology

The categorisation was done on the basis of the calculation method of the guideline (1999/45/EG)

Acute Toxicity: Not toxic

Long-term toxicological effects:

No long-term toxicological effects have been noticed with humans

Sensitisation: Not sensitising

Mutagenicity, cancerogenic, reproduction toxicity: Not known

14. Indications on ecology

Ecotoxic effects: Quantitative data are not available.

Other indications: In the case of appropriate handling and use, no ecological problems are to be expected.

15. Disposal considerations

If recycling is not possible, the product has to be disposed according to the applicable local legal regulations. Packaging which cannot be cleaned has to be disposed in the same way like the substance itself.

16. Transport regulations

No dangerous goods according to the transport regulations.

17. Regulations

The product is classified according to the EC guidelines and the applicable national laws.

Code letter and risk description of the product: none

Symbols: none

R-marking: none

S-marking: none

Special marking: none

Water endangering category: In general not water-endangering

18. Other indications and hints

The above-mentioned indications are based on the current knowledge and are no assurance of characteristics. Existing laws and regulations are to be considered by the recipient of our product at their own responsibility.
