### PERFORMANCE

- Designed to fit on the lower teeth
- Preferred guard for performance training and non-contact sports
- Improves movement efficiency, resulting in an enhancement of performance
- Fully customizable by color, name, logo

### PROTECTION

- Designed to offer the best protection to the upper teeth
- Delivers the benefits of proper TMJ alignment
- Fully customizable by color, name, logo

### RECOVERY

- Low-profile design delivers improved sleep for light night-time grinders (not a heavy bruxism guard)
- Promotes better oxygen flow
- Engineered to ensure comfort and long-lasting protection, wearability and patient compliance
- Experience performance enhancement through improved recovery
