

RESTED

SLEEP ENGINEERING

The Sleep Loft Rested Sleep Engineering

Unit 3,
Westmoreland House
Cumberland Park
80 Scrubs Lane
Hammersmith and Fulham
London
NW10 6RE

The Sleep Loft is our London concept showroom and the heart of the Rested Experience. Designed to transport you immediately from the streets of London into a surprising and calming environment, reminiscent of both a residential home and a luxury boutique. It is a unique experience where we acknowledge the principles of privacy, time, education and fun in the pursuit of Sleep Engineering and total comfort for our clients.

By Car: We are located at the north end of Scrubs Lane, just minutes away from Westfield London. Parking is available 'on street' directly opposite the showroom. Meters are operative 9am to 5pm and accept coins only. We are located directly opposite the Portobello Press and 'Loft Studios'.

By Public Transport: We are approximately 10 minutes walk from Willesden Junction Station, served by both Overground and Bakerloo Line Underground services. Exiting on foot, do not follow exit signs to Harlesden High Street. Instead follow all signs marked 'Harrow Road (via steps)'. This is a long walkway that runs beside the railway lines. At the end, turn right onto the Harrow Road, and right again onto Scrubs Lane (after the Texaco Garage). Proceed past 'The Chandelier Building' on your right, and over the crest of the road bridge. Thereafter you will see 'Rested' located on the right in the middle of the low rise fully glazed terraced buildings.

Alternatively take the Central Line to White City followed by the 220 Bus towards Willesden Junction. The bus journey takes 12 minutes and there is a bus stop directly outside the showroom marked as stop 'F - Cumberland Park'.
