Material:	Steel
Surface Finish:	Powder coat
Color:	Black
Width adjustment:	17-70mm
Installation:	Screws to VESA Clamp to pole Screw under desk Attach to SSA1012
Max load:	5Kg

With the SSA1011 multifunctional thin client mount, placing your CPU in a convenient, accessible place has never been easier. You'll be able to mount your CPU instead of leaving it on the floor to take up your foot space! The universal design adapts to the dimensions of the box, while its mounting interface attaches to a variety of surfaces: a VESA plate, directly to a desk, clamped to a pole. Straps are included for increased stability. It's weight capability is 5kg/11lbs. The SSA1011 is not only a great organizational tool, but also reduces CPU's internal contamination and extends equipment life.
