# Special Care Notes

## Special Flower Care Notes for Items Specific to this Package

- **Guard Petals on Roses:** All roses have fugly guard petals that are to be plucked off.
- **Ranunculus:** Have 22 gauge straight floral wire on hand in case they are heavily curved and bending under their own weight. We have a Youtube video on how to do this!
- **Carnations:** Sometimes these guys can come in closed, but with carnations, you can easily use thumbs to push or 'mash' them open. They are extremely tough and hardy, and the only flower you can manhandle in that way.
- **Poms and Thistle:** As a designer, I often break this product apart to not only make it go further, but to reduce the size and visual weight. I love pulling off lower sprigs to then be used in bouts or a corsage! ☹
- **Bug Nibbles:** Remember that you are working with unprocessed greenery, so you may find some leaves that have been munched. Just snip those away! Nibbles are typically found on seeded euc and salal predominately.
