SPECIAL FLOWER CARE NOTES FOR ITEMS SPECIFIC TO THIS PACKAGE:

- **Bug Nibbles:** Remember that you are working with unprocessed greenery, so you may find some leaves that have been munched. Just snip those away! Nibbles are typically found on seeded euc and salal predominately.

Greenery Only

- Eucalyptus: Seeded eucalyptus is off-crop and unavailable late March-June. Gunni euc typically has tender growth ends that shrivel and can be snipped or pinched off, this is normal and to be expected with this greenery.
