Special Care Notes

Special Flower Care Notes for Items Specific to this Package

- **Reflex Rose and Lisianthus:** We adore reflexing roses and lisianthus! It's a baller florist move that gives you more bang for your buck!
- Guard Petals on Roses and Spray Roses: Fugly petals are a part of the florist hustle, just pluck 'em off!
- Carnations: Sometimes these guys can come in closed, but with carnations, you can easily use thumbs to push or 'mash' them open. They are extremely tough and hardy, and the only flower you can manhandle in that way.
- **Delphinium**: Delphinium is a weaker flower that does not have a long vase life. It tends to shed so don't let that alarm you. Keep it in a cool location and baby the hell outtait!
- Bug Nibbles: Remember that you are working with unprocessed greenery, so you may find some leaves that have been munched. Just snip those away! Nibbles are typically found on seeded eucalyptus predominately.
