Autumn and Fall

SPECIAL FLOWER CARE NOTES FOR ITEMS SPECIFIC TO THIS PACKAGE:

- **Reflex Roses:** We adore reflexing roses and lisianthus! It's a baller florist move that gives you more bang for your buck, ESPECIALLY when it comes to Golden Mustard Roses. Those guys are pricey and can be small, so a little reflexing goes a long way!
- **Scabiosa:** Leave the straws on the stem to support the head. Also, it's not uncommon to have unbloomed buds.
- **Football Mums:** Gently remove netting on bloom. Keep in cool location.
- **Golden Amaranthus:** The foliage on amaranthus is always whack and should be snipped off. But it's ok, we don't love it for it's leaves!
- **Cushion Flowers:** As a designer, I love to cut these apart when placing in my designs. It makes the product go further, and avoids too much visual weight, as there are typically 4-7 buds per stem.
- **Carnations:** Sometimes these guys can come in closed, but with carnations, you can easily use thumbs to push or 'mash' them open. They are extremely tough and hardy, and the only flower you can manhandle in that way.
