

USER MANUAL

MANUAL SOAP DISPENSER

Model No:CD-1178

Please read user manual carefully before using.

se the key which will be supplied with soap dispenser to the Lock.

Step 8- at the first time use soap can not flow into the pump head, please press several times until the liquid come out.

◆Priming the pump

After completion of either mounting installation above you will then need to Prime the Pump. To do this you will need to;

1. Hold the pump button in.
2. Place your finger over the spout of the pump to block the airflow into the pump this will create a slight vacuum once the button is released.
3. Keep your finger on the spout and release the pump button, repeat until you have a continuous flow of liquid. You may have to repeat this process a couple of times especially when filling with thick liquids.

◆Maintenance

Bathroom cleaners and sprays often contain damaging abrasives and can be corrosive to the surface of your dispenser. The best method for cleaning your Brilliant Ideas Dispenser is by using a soft damp cloth.

If you find the chamber is dirty or has debris internally, rinse the chamber with warm water and replace contents. If the dispenser has not been used for a long time, the liquid may have solidified. Please rinse the chamber with warm water and replace contents.
