

Pomegranate Peeler PGP-001

The pomegranate peeler provides fast and efficient peeling. Placing the piece cut in half, the fruit can be shelled by tapping the outside of the piece.

Its design allows the product to be collected perfectly extracted and ready for packaging. Designed to optimize working time to the maximum, shelling the piece while preparing the next. It has special settings to facilitate peeling of all sizes, giving this machine great utility in fruit production processes.

General characteristics

- Speed, efficiency and simplicity.
- Allows quick and safe cleaning using warm water and a cloth. Recommended daily cleaning.
- Shells grenades with a diameter of less than 124mm.
- Self-adjusting polyethylene pieces to improve fruit extraction depending on the size of the piece.
- Finished in food grade stainless steel.

Technical characteristics

Productivity	2-3 units/min	Net weight	15 kg
Dimensions	420 x 410 x 270 mm	Consumption	220W
Voltage	220/240 V - 50/60 Hz 110/120 V - 50/60 Hz	Material	304 stainless steel and polyethylene
		Fruit size	Diameter less than 124 mm
Polyethylene rings size	60 mm ring for parts between 40-60 mm 80 mm ring for pieces between 61-80 mm 100 mm ring for pieces between 81-100 mm Without ring for pieces between 101-124 mm		

* Spare parts available
