

NOMEX[®] PROVIDES EXCELLENT BUILT-IN HEAT AND FLAME PROTECTION

Congratulations! You have selected a garment made of Nomex[®]!

Nomex[®] garments offer the following benefits:

- Permanent heat and flame protection.
- Durability and long wear life.
- Ease of wash and care.
- Resistance to most chemicals.

Wash & care recommendations:

Nomex[®] garments can be cleaned by home or industrial laundry or dry cleaning. The following suggestions will help keep your garments looking their best and optimise their wear life.

- Read and carefully follow manufacturer's laundering instructions.
- Close/cover all Velcro[™] and zippers.
- Empty all pockets.
- Launder Nomex[®] garments separately from other garments.
- Do not overload laundry equipment.
- Use detergents for coloured textiles, preferably liquid without bleaching agents.
- Tumble dry garments at low temperature settings or hang dry away from any lightsource.
- Store Nomex[®] garments away from any lightsource.

Your garment made of Nomex[®] has been tested on DuPont testing facilities to ensure functionality and performance that meet or exceed the minimum requirements of the EN norms. **This could save your life!**

The hangtag attached to your garment shows which tests have been carried out:

The DuPont[™] Thermo-Man[®] life-size mannequin burn simulation test ensures your garment's protective performance and integrity against heat & flame.

The DuPont[™] Arc-Man[®] test and ATPV evaluation ensure your garment's protective performance and integrity against the thermal hazards of an electric arc.
