THE ORIGINAL FIBERGLASS FRAME UMBRELLA

Fiberlite Umbrellas was granted the first U.S. patent for a fiberglass frame umbrella in 1987. Since then, we have refused to compromise the integrity and values that we founded our company upon more than 30 years ago. Still family-owned, we are the only umbrella manufacturer to design, source and handcraft our fiberglass frame umbrellas exclusively in the United States.

By ensuring the quality of our fiberglass, we are able to create a superior product to those who import their fiberglass components. More strength, less weight, and the best warranty in the industry – five years complete. Our products have been time-tested in the extreme conditions of South Florida, and we still personally speak to every customer to guide them through the best products to meet their needs.

Whether you are a longtime partner or have only recently discovered the Fiberlite advantage, our extensive knowledge, one-on-one customer service, and competitive pricing will keep you a part of our Fiberlite family. One look, and you'll see why life is better under a Fiberlite umbrella.

POOL & SPA

Our fiberglass poles are designed to go directly into the pool with no rotting, swelling, corrosion, oxidation, or bonding requirements. Call for pricing and options for pool loungers.

UNAFFECTED FIBERGLASS

Fiberglass poles stay like-new when placed directly in the pool.

CORRODED METAL

Aluminum poles corrode with chlorine deposits and oxidation in the pool.

ROTTEN WOOD

Wood poles swell, rot, and discolor in the pool.

POOL FURNITURE

KAI POOL CHAISE

FLK: The ultimate in cool and contoured relaxation, our Kai Pool Chaise can be used on tanning shelves or ledges up to 9" deep. It features an integrated cup holder, anti-rocking base design and easy-to-fill hose hole. Its durable polyethylene construction can also be customized with a logo. 70"L x 26.5"W x 29"H. Sold in multiples of two chaises. Use with our Kai Resort Pillow.

KAI RESORT PILLOW

FLKP: Kai Resort pillows are made of Sunbrella marine-grade fabric and include a matching cell phone holder. Available in Pacific Blue, Aquamarine or White. Use with our Kai Pool Chaise.

POOL FURNITURE

POOL CHAIR

FL101BC | FL101BCD WITH FOOTREST: Constructed of oak hardwood, brass hardware and marine-grade Sunbrella/Outdura fabric, our Beach Chair has a 3-way adjustable seat back, and folds flat for easy transportation and storage. Footrest option is available.

UMBRELLA TABLE

FLSAT: Features built-in drink holders and adjustable screw-lock design to fit any pole diameter or height.

BEACH CABANA/HOODS

Beach and Poolside Cabanas/Hoods

Our Cabanas and Hoods can fold flat and come available with an optional mesh panel for increased air circulation. Two chairs and a side table fit within the large Cabanas, making them ideal for rentals.

CABANA HOODS:

FL57LC: LARGE - 5' HIGH X 7' WIDE

Can be mounted to pool deck or secured in the sand.

FL35CH: SMALL - 3' HIGH X 5' WIDE

Can be attached to individual chairs as a personal shade.

ACCESSORIES

WOOD POLE SAND ANCHOR

FLSAW: This sand anchor is designed specifically for wood umbrella poles to make installation and relocations fast, easy and secure.

PREMIUM SAND ANCHOR

FLSAN: Forged from heavy-duty aluminum, this upgraded sand anchor is drill-compatible for fast and easy installation. Customizable length and powder-coat coloring available. Can be used alone, or with our Sand Anchor Drill Bit attachment.

ACCESSORIES

SAND ANCHOR

FLSAP: Our traditional anchor is constructed of lightweight plastic with a simple handcrank design.

SAND ANCHOR DRILL BIT

FLSAN-B: Ideal for rental setups, Fiberlite's custom drill bit attachment makes quick work of sand anchor installation. Use with our Premium Sand Anchor.

ACCESSORIES

FIBERSTICK ANCHOR

The Fiberstick Anchor is perfect for jet ski anchoring, trout and bass fishing, or as a transom anchor for boats up to 22'. Featuring a solid core with stainless steel shackle, it is ideal for shallow sandbars and soft ground anchoring – at half the price of the competition.

FA96: 96": Best suited as transom anchor for boats up to 22'.

FA65: 65": Best suited for jet skis.

POOL SLEEVE

FLPS: Our pool sleeve securely fastens umbrellas into the holes in your pool or ledge with no wobble or tilt. (8" h.)

Aluminum

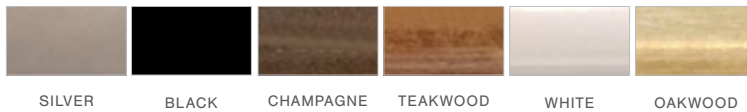

Available in standard or anodized aluminum. Custom powder-coating also available in hundreds of colors. Call for options and pricing.

RIBS

.302 / .500

.750

AUTO-LOCK

The optional auto-lock pulley system makes easy work of opening and closing our heavy-duty, .750-framed umbrellas. As the umbrella fabric naturally softens over time, the cam cleat design lets you easily increase tautness without the need for additional pin holes.

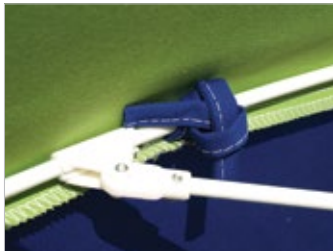

QUALITY YOU CAN SEE

Canopy

Top-of-the-line, marine-grade fabrics are standard on our umbrellas.

Inside Tie

Extra inside ties secure the fabric to the frame to prevent parachuting.

Wired Ribs

Wired-together framework adds strength and stability over individual rib connections.

Pockets

Triple-sewn with 135 UV nylon thread, our reinforced pocket corners create added durability.

Vent

As fabric naturally softens over time, tie-on vents allow for gentle tightening of the fabric, as well as easy removal for washing or replacement.

Pole

Our patented fiberglass poles and frames will not warp, rust, rot or oxidize.

WARRANTY

#1 in the Industry

FABRIC

Fiberlite Umbrellas uses awning/marine-grade, acrylic, 9 oz. fabric as the standard on all of our umbrellas. Furniture grade fabric is not recommended or warranted because it is too soft and stretches easily. Texoline and polyesters may be used, but they also do not fall under our warranty.

SHIPPING

Fiberlite Umbrellas' preferred carriers are FedEx Ground for all smaller umbrella orders and Southeastern Freight for all larger shipments, including all filled bases. All one-piece pole orders of more than two umbrellas will have to ship truck line due to the length restrictions. If a customer prefers to use a different truck line carrier or their own shipping account at one of our preferred carriers, there will be a handling fee only.

RETURNS

Fiberlite Umbrellas requires all returns to be authorized by a Fiberlite representative prior to return shipment. The customer is responsible for providing the umbrellas to Fiberlite to inspect and repair them. If the umbrellas are warranted, then Fiberlite will pay for the return shipping. If the umbrellas are not warranted, then the customer will be billed for the repair and any shipping charges.

WARRANTY

Fiberlite Umbrellas includes a comprehensive, five-year commercial warranty on all our umbrellas that have a fiberglass pole and awning-grade fabric. This warranty does not cover any other fabric, including fabric provided by the customer. Logos and silk screens, aluminum cranks and poles, wood-bottom poles and any custom designs are not covered under this warranty.

All Fiberlite Umbrellas must be closed in extreme windy conditions or with any threat of inclement weather conditions. This warranty does not include any acts of God, weather related damage, failure in securing umbrellas, misuse, vandalism, neglect or wind-related damage. All warranty claims are subject to prior inspection from a Fiberlite representative.

PROMISE

Fiberlite Umbrellas promises to manufacture our umbrellas in the United States of America, to the highest standards in our industry. We will never compromise our values or the integrity of our products under any condition. **We at Fiberlite believe that there is no benefit in gaining success in this world by losing your values and your beliefs to achieve it.**
