

VONDOM®

CARE AND MAINTENANCE

All products are made with high quality materials. To keep your furniture looking like new, routine cleanings are the key to keeping years of superior beauty and performance.

Resin products are meant for outdoor and indoor use and harsh weather conditions. However, just like any outdoor product, the elements and lack of cleaning could create stains. Resin products inherent properties that don't hold onto much dirt and grime. For lacquered finish simply wiping with clean cotton cloth or sponge, will keep products clean, preferably by blotting to avoid scratches. Remember that dust is abrasive. For basic finish spray with degreaser letting it work for a few minutes and then clean with a pressure washer or in case the pressure water is not available, use a soft brush, soap and then rinse with water.

To minimize any problems with stains including bird droppings, they shall be cleaned as soon as they are notice, making sure the recommended cleaning procedure is followed.

If products are outside, it's suggested to clean them, weekly.

Avoid the use of chemicals, solvents, and abrasive cleaners.

Never pressure wash or use abrasive solutions on lacquered products.

Cushions used in outdoor installations, should be lifted from the sofas to dry. This will help avoid moisture that can lead to the formation of mold stains under the cushion.

- Vondom LLC is not responsible for any misuse or negligence by the client in the handling of our products, which results in injury or worse on any persons and/or property.
- Warranty for our furniture is 2 years under normal intended use, and is limited to material and labor defects.
- All audio components, electrical, textiles and cushions have a 1-year warranty.
- Warranty does not cover damages due to accidents, abuse, misuse, unauthorized repairs or weather conditions.
- Lacquer products sold with cushions, are not recommended for totally exposed installations.

If cushions are not properly maintained or removed from the lacquer furniture for long period of time it might cause bubbling or discoloration in the lacquer paint.
