Design by Staffan Holm

Staffan Holm repurposed traditional carpentry techniques for the design of the solid-oak Alle Table, which features a structural beam on the underside recalling ancient Japanese temple architecture. In this and many other ways, the Alle Table is especially Hem: traditional modes of making reclaimed for modern manufacture; good looks and practicality given equal consideration; engineering and handwork combined; quality materials used liberally. Alle means "everyone" in German, and this table is a true reflection of the design principles we cherish.
