

Dusk Lamp

by Sylvain Willenz

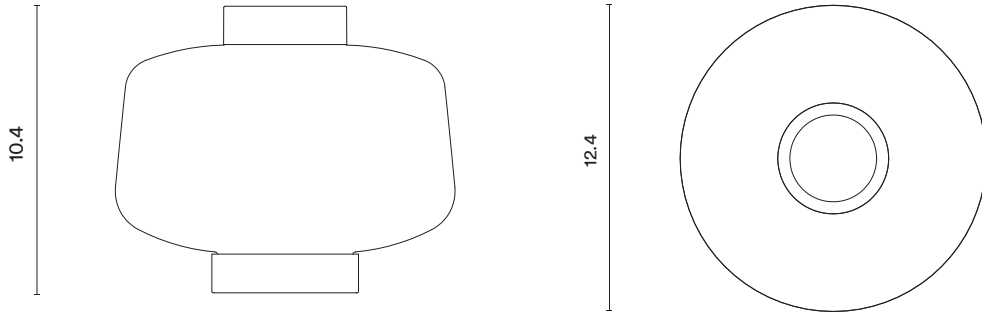

Sylvain Willenz's Dusk – an interpretation of the archetypal suspension lamp – provides a cosy, diffused light. Nodding to Far East, with its shape inspired by traditional Japanese rice paper lanterns, Dusk gives an enchanting glow in the dark. The handblown shade is supported by two metal rings which hold the lamp together, underlining its strong, graphic yet understated character. Both the gloss and matte shades provide a soft glow, in anthracite or ivory variations, and work just as harmoniously in a set as they do as singular, statement pieces.
