PX347c **PRIME**

USER MANUAL

Pixio

Brand: Pixio
Product Name: 34inch Ultrawide WQHD Gaming Monitor
Product Code: PX347c Prime
FCC ID: 2A156-PX347CPRIME

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

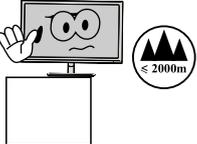

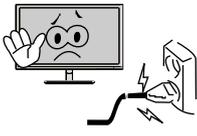

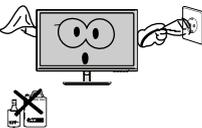

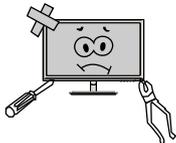

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

I. Safety Prevention Measures

			
<p>Please always place this device on a stable surface; otherwise, it may fall and be damaged.</p>	<p>The altitude and the tropical environment the adapter fits depend on which adapter is used for the device. The rating plate on the back of the device with the above warning sign indicates that this product is applicable for the safe use of the region with altitude of 2,000m and below.</p>	<p>Do not hold the plug with wet hand ; otherwise, electric shock may occur. Make sure the plug has a good touch because poor touch may cause fire.</p>	<p>Do not use a broken power plug nor keep a power cord near heat source; otherwise, electric shock or fire may occur.</p>
			
<p>When cleaning the device, be sure to remove the power-plug , use a piece of soft cloth rather than industrial chemical to clean the device, be sure not to let water enter the device.</p>	<p>Do not disassemble this device without permission. In case of failure, be sure to contact a professional servicing person to fix it. The authorized disassembly of this device may result in electric shock or fire.</p>	<p>In case of rare smell or noise out of this device, be sure to immediately cut off the power supply and ask a professional servicing person to fix the problem.</p>	<p>When this device is idle for long time, be sure to power it off; otherwise, electric shock or fire may occur.</p>

Note:

The device with AC switch may use such AC switch as cut-off component.
 The device without AC switch may use power plug or coupler as cut-off component.
 In case of the normal use of the equipment, make sure the cut-off component can be accessed easily.

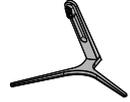

II. Installation Instructions

1. Accessories

Power cord

Base/Stand

Signal cable

Warranty card and
certificate of conformity

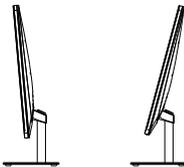

User manual

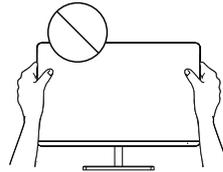

(The above pictures are for illustration only and the physical accessories shall govern.)

2. Angle Adjustment

2.1 The screen can be adjusted by inclining forward and backward; however, the specific adjustment depends on the specific model of the device. Generally, it may be inclined $5\pm 2^\circ$ forward and $15\pm 2^\circ$ backward.

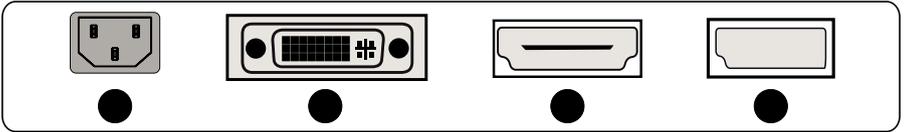

2.2 When adjusting the angle of the monitor, be sure not to touch or press the area of the screen.

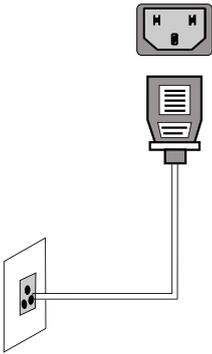

(The above pictures are for illustration only and the physical accessories shall govern.)

III. Connect the Monitor to PC

⚠ Before connecting the LCD monitor to PC, please power the PC and the monitor

Model with inbuilt power supply

* Warning: Always use the power cord of standard configuration.

● **Power Plug**
Connect the power cord of the monitor into the POWER port in the back of the monitor.

● **DVI Port**
Connect the DVI cable into the DVI IN port in the back of the monitor (this needs the support of the monitor).

● **HDMI Port**
Connect the HDMI cable into the HDMI IN port into the back of the monitor (this needs the support of the monitor).

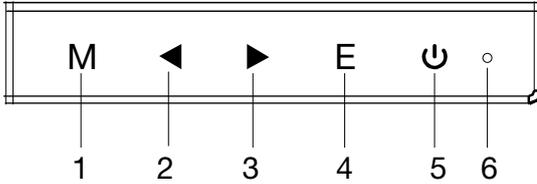

● **DP Port**
Connect the DP cable into the DP IN port of the monitor (this needs the support of the monitor).

(The above pictures are for illustration only and the physical accessories shall govern.)

IV. User Setup

1. Schematic Diagram of Keys

2. Description of Keys' Functions

1.	M	Pops up the menu/Backs to the previous menu (in case of main menu, exits from the whole menu).
2.	◀	When the menu is activated, used as the left function selection key, and decreases progressively the value of the progress bar.
3.	▶	When the menu is activated, used as the right function selection key, and increases progressively the value of the progress bar; when the menu is inactivated, used as the specified shortcut mode hot key (FPS/RTS mode).
4.	E	If the menu is activated, chooses the corresponding function.
5.	⏻	Power switch: Powers on/off the monitor.
6.	LED indicator light	Blue: in normal switch-on state; flickering in blue: in power-saving state.

Note: The physical keys of the specific model shall govern.

All specifications and informations are subject to change without notice.

1. PIP (Picture in Picture) Input Information

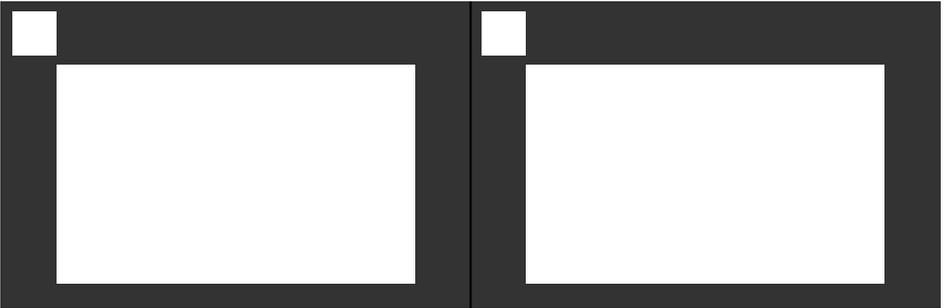

Main screen input source	Picture in Picture Additional Input Source			Window Swap	picture mode
	DP	HDMI	DVI		
DP	X	O	O	O	O
HDMI	O	X	X	X	O
DVI	O	X	X	X	O

Note: "O" means this feature is supported while "X" means it is not supported.

The above information is related to input options and the monitor's OSD Menu. For more information on these, refer to the "Basic Setup" and "OSD Menu" sections of the manual.

2. PBP (Picture by Picture) Resolution Information

When using the PBP function, certain resolution settings are recommended in order to prevent image deformation or other undesired visual effects. 1680x1050p is the recommended resolution setting for each window.

VI. FAQ

Faults occurring	Possible solutions
The power indicator light is not on	<ul style="list-style-type: none">◆ Check if the power is on.◆ Check if the power cord is connected.
Impossible plug-and-play	<ul style="list-style-type: none">◆ Check if the function of plug-and-play of the device is compatible with PC.◆ Check if the display card is compatible with the plug-and-play function.
Dimming picture	<ul style="list-style-type: none">◆ Adjust brightness and contrast.
Flickering picture or picture with ripples	<ul style="list-style-type: none">◆ There may be electrical appliances or equipment with electronic disturbance.
The power indicator light is on (flickering), but the monitor has no pictures.	<ul style="list-style-type: none">◆ Check if the PC power is on.◆ Check if the PC display card is inserted properly.◆ Check if the signal cable of the monitor is correctly connected with the PC.◆ Check the signal cable plug of the monitor and make sure every pin has no bending.◆ Observe the indicator light by pressing the Caps Lock key on the PC keyboard and check if the PC is working.
Color shortage (red, green and blue)	<ul style="list-style-type: none">◆ Check the signal cable of the monitor and make sure every pin has no bending.
Picture with color difference (white looks not white)	<ul style="list-style-type: none">◆ Adjust RGB color or reselect color temperature.

VII. Product Specifications

Diagonal dimensions	Picture aspect ratio	Picture dimensions (mm)	Dot distance (mm)	Optimal resolution
34"(86.36cm)	21:09	797.22*333.72	0.07725*0.23175	3440*1440@60Hz
Ambient temperature	Storage temperature	-20°C to 45°C		
	Working temperature	0°C to 40°C		
Humidity	RH for operation	10% to 85%		

NNote: The actual application of the above parameters shall be subject to the specific model.

VIII. Table of Product Preset Modes

Display dimensions	Aspect ratio	Preset resolution/Refresh rate								
		34"(WQHD)	21:9	640x480 (60Hz)	800x600 (60Hz)	1024x768 (60Hz)	1280x1024 (60Hz)	1440x900 (60Hz)	1680x1050 (60Hz)	1920x1080 (60Hz)

Remark: When the resolution are 2560*1440@60Hz/3440*1440@60Hz/1920*1080@144Hz/2560*1440@144Hz/3840*2160@30Hz connection via DVI port, pls choose 24+1 pin double - channel DVI cables.

IX. System Requirements

Below are the minimum system requirements for your monitor. The requirements are recommended in order to properly use all of the monitor's features and ensure high-quality picture.

Minimum Requirements

Operating System: Windows® 7 / Windows® 8 / Windows® 10 64-bit (latest service pack) or higher

Processor (CPU): Intel® Core™ i5 or AMD Phenom™ II X3 or higher

Graphics Card: NVIDIA® GeForce® GTX 950 or AMD Radeon™ R9 380 or higher

Memory: 6 GB RAM
