

Bloody Mary Mix

- 100% ready to drink, just add vodka, tequila, or gin. Or splash into your beer for a delicious Michelada
- Less is more: Made with only 10 all-natural ingredients
- Made with FRESH cucumber, horseradish, garlic, dill, and habanero
- Cucumber infused water, a by-product of our pickling process is the star ingredient
- Vegan and gluten free

After one sip, there's no going back to anything else

This mix shatters the stigma that freshness can't come in a jar.

We started as a pickle company with no intentions of ever making a Bloody Mary mix. However, when we realized that our pickling process creates a delicious by-product - a fresh cucumber infused water - we were sure we could put it to better use than spilling it down the drain. We set out to develop our Bloody Mary Mix recipe using this cucumber water as our primary ingredient. Unlike most mixes out there, ours only contains ten, simple, high quality ingredients, five which are fresh and are found in our most popular pickles, Habanero Horseradish Dills. The result is an extremely vibrant mix that is bursting with bold flavors, 100% ready to drink as is, and sets a new standard for what Bloody Marys can, and should, be.

A Mountain of Flavor Awaits
