PRODUCT CARE GUIDE:

Simply clean and wipe with a warm water and a non-abrasive cloth. If you need to use a cleaner, please keep to a natural, low-tox type to avoid stripping the colour or stain of the timber.

To ensure longevity on your pieces, a specific timber sealer could be added for indoor and outdoor use. Use a sealer on any furniture or decor item that will not affect the colour or stain of your item. Please check with a timber professional to clarify which sealer would work best. Our pieces leave our factory with a natural oil to finish the timber treatment, please be careful with fabrics, carpets and floors as this may stain.
