

MOBIS[®] II SEAT

Leaning Seat

MOBIS[®] II SEAT

Leaning Seat

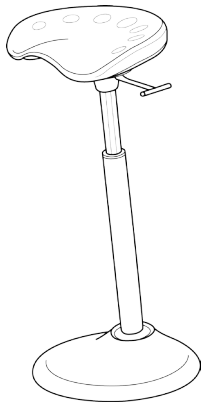

Mobis[®] II is the next evolution of the ergonomic task seat. What's new? We've upgraded the seat pan to include a Tri-Flex Seat Cushion that has built-in sitz bone contours for plush support and a waterfall edge to reduce pressure on the upper legs and promote healthy circulation.

How does it work? Mobis II won't stand for slouching! It gently enforces good posture

by returning your spine to its healthy S-curve. And, because the seat's angled design encourages movement, both your body and your brain stay engaged.

Mobis II pairs perfectly with any standing desk or height-adjustable workstation. It's smart, space-saving design is also ideal for meeting spaces, encouraging spontaneous collaboration and aha-moments.
