

## Get Home Bag Checklist

A Get Home Bag is a bag of survival supplies that can help you make it to your home if there is a natural disaster that occurs while you are away from your home. The bag is more compact than a Bug Out Bag and the supplies in it should help your survival for 24-48 hours. The best place to keep this bag is in your car, or you can also keep multiple bags in common places you are at when you are away from the home, such as work.

### Container

- Backpack
