

Oxyfresh®
WE ♥ SMILES

WHY WE'RE DIFFERENT

OXYFRESH STARTED THE WAY ALL GREAT THINGS START:

We had an idea. It was time to reinvent dental care. We knew there had to be a better way ...

Most mouthwashes have a high percentage of alcohol, which can burn, irritate tissue and cause dryness. This encourages more bacteria to accumulate, making bad breath problems even worse and also contributes to unhealthy smiles. They're also loaded with strong artificial flavors that only mask bad breath *temporarily* and colorful dyes that can over time stain pearly whites.

Same problem with toothpastes: most have artificial flavors, dyes and unnecessary, highly abrasive ingredients that can slowly damage delicate tooth enamel.

We Didn't Jump On the Alcohol-Free, Dye-Free Bandwagon ... We Pioneered It.

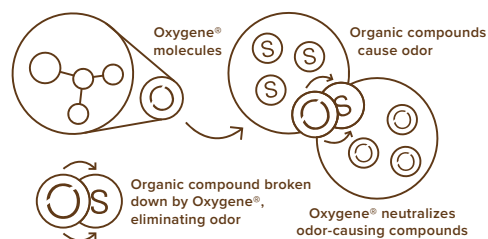

INTRODUCING THE BRILLIANT GAME CHANGER ... OXYGENE®

Born from the idea that real dental care doesn't need to cut corners, our unique, dye- and alcohol-free formulas are powered by our exclusive ingredient Oxygene®. It's unlike anything in the marketplace. This groundbreaking, gentle, 100% safe and non-toxic ingredient completely neutralizes bad breath-causing germs and bacteria.

It seems like magic ... but it's really just great science.

Bad breath, or halitosis, is caused by little pests known as "volatile sulfur compounds" (VSCs). Oxygene® gently neutralizes those organic compounds, eliminating bad breath at the source.

HOW OXYGENE® WORKS:

FRESH BREATH REINVENTED

ENTER THE WORLD OF EXTRAORDINARY DENTAL CARE THAT MATTERS

Creating fresh breath and healthier smiles is our passion.

Our environmentally friendly products are for anyone who's looking for all-day fresh breath, gentle cosmetic support, or soothing periodontal care.

Oxyfresh dental products stand alone and feature Oxygene[®], a safe yet powerful ingredient that gently neutralizes cellular debris and organic compounds that cause bad breath and contribute to an unhealthy smile.

Crafted with only the best ingredients that science and Mother Nature have to offer, giving even the most ingredient-conscious people peace of mind, these unique formulas are clinically proven more effective than the leading store brands and are always 100% free of alcohol, dyes and harsh abrasives. We create dental care that matters.

That's our promise.

We've modernized the way dental patients approach at-home dental care with our patented, leading-edge products that have created millions of healthy smiles. No wonder dental professionals worldwide have been recommending Oxyfresh for over 35 years.

- **Unique** - Patented formulas aren't found anywhere else.
- **Safe** - Non-toxic formulas help people achieve optimum oral health.
- **Clinically Proven** - 12-month, double-blind study, Oxyfresh products outperformed store brands.
- **Gentle** - Low-abrasion formulas help protect smiles, gums and cosmetic work.
- **Happy Smiles** - Ingredients that help promote healthy smiles keep pearly whites bright.
- **Fresh Breath Support** - Best way to neutralize bad breath, coffee breath, morning breath, etc.
- **Cosmetic Support** - Gentle support for those who whiten teeth, have porcelain or composites.
- **Long-term Periodontal Support** - Customize treatment based on needs.
- **Denture, Implant & Surgical Support** - Favorite among dental surgeons for unsurpassed soothing and deodorizing benefits.
- **Fluoride Options** - Helps protect smiles against cavities.
- **Essential Oils** - Natural oils that leave smiles feeling completely fresh and clean all day, without an aftertaste.
- **Naturally Sweetened With Xylitol** - Shown to fight the formation of plaque and bacteria.
- **pH Balanced** - Neutral pH, to help protect teeth and gums.
- **Alcohol Free** - Gentle and effective, without the "burn."
- **Dye Free** - No staining of enamel or cosmetic work.

Maximum Fresh Breath

LEMON MINT TOOTHPASTE

SUPERHERO OF TOOTHPASTES

Our maximum strength Fresh Breath Lemon Mint Toothpaste is perfect for anyone who has chronic bad breath (halitosis) or periodontal disease, and those looking for a proven solution to fight bad breath each day. Unrivaled in performance, our exclusive formula of Oxygene® and zinc guarantees a healthier smile and the freshest breath protection possible.

It's infused with a refreshing burst of essential oils – lemon, orange, grapefruit, bergamot, lime and spearmint – for a fresh, just-brushed feeling that lasts all day.

Plus, it's naturally sweetened with xylitol, which has been shown to fight the formation of plaque and bacteria.

- ♥ **Maximum, All-Day Fresh Breath** – Finally say goodbye to bad breath with our fast-acting formula of Oxygene® and zinc. We don't just mask bad breath, we safely neutralize it at the source.
- ♥ **Clinically Proven** – Our maximum strength Fresh Breath system is proven to strengthen gums, freshen breath, reduce bacteria by 85%, improve gingival index by 16.6% and improve plaque index by 9.41%.
- ♥ **SLS Free** – A must for those who are prone to allergies, canker sores or cold sores.
- ♥ **Dye Free** – Non-staining to keep pearly whites shining bright.
- ♥ **Low Abrasion** – The best smiles are healthy ones! That's why we're serious about protecting delicate enamel, gently ... without the gritty, harsh texture.

Maximum Fresh Breath

LEMON MINT MOUTHWASH

DOUBLE DOWN ON FRESH BREATH

Our maximum strength Fresh Breath Lemon Mint Mouthwash takes bad breath-fighting technology to the next level (without the burn!) and is the perfect complement to our Fresh Breath Toothpaste. It's safe for everyone and a must-have for those with chronic bad breath (halitosis) or periodontal disease.

Our unique and patented formula includes 2x the incredible combination of zinc and Oxygene® to completely neutralize the bacteria that cause bad breath. We safely ELIMINATE bad breath.

Infused with a refreshing burst of essential oils, our Lemon Mint Mouthwash helps stimulate healthy salivary flow ... a major advantage for anyone suffering from dry mouth.

- 🦷 **Maximum, All-Day Fresh Breath** – Finally say goodbye to bad breath with our fast-acting, patented formula of Oxygene® and zinc. We don't just mask bad breath; we safely neutralize it at the source in just 60 seconds.*
- 🦷 **Clinically Proven** – Our maximum strength Fresh Breath system is proven to strengthen gums, freshen breath, reduce bacteria by 85%, improve gingival index by 16.6% and improve plaque index by 9.41%.
- 🦷 **Alcohol Free** – We didn't jump on this bandwagon; we pioneered it. Our formula protects smiles without burning or dehydrating delicate tissues.
- 🦷 **Dye Free** – Non-staining to keep pearly whites shining bright.
- 🦷 **Naturally Sweetened with Xylitol** – Xylitol has been shown to inhibit the formulation of plaque, bacteria and cavities.

GENTLE, YET POWERFUL

Our oh-so-gentle, minty-fresh cosmetic toothpaste is a favorite among dental professionals. In a world where smiles are key to a first impression, protecting cosmetic dental work with a gentle, at-home system is crucial.

We don't use alcohol, dyes or highly abrasive ingredients that can stain or harm dental cosmetic work. Our innovative Pro Formula has one of the lowest abrasion ratings on the market. Combined with our exclusive Oxygene® and essential mint oil, nothing works better to protect bright pearly whites. It's perfect for those who use whitening products or have veneers or sensitive teeth and gums.

- Ultimate Protection** – Formulated to protect and support delicate cosmetic dental work and pearly whites.
- Instant, All-Day Fresh Breath** – Gently say goodbye to bad breath with our exclusive ingredient Oxygene®. We don't just mask bad breath; we safely neutralize it at the source.

GENTLE, YET TOUGH ON BAD BREATH

Our fantastic patented Pro Formula Mouthwash has been a dentist favorite for over three decades. It's perfect for anyone who has veneers or sensitive teeth and gums or uses whitening products and wants fresh breath and a healthy smile.

It's powered by our unique, patented combination of Oxygene® and zinc to gently, yet effectively, eliminate bad breath. Yet it's incredibly gentle with a natural, light peppermint oil that soothes and conditions those delicate smiles and gum tissues.

Plus, it's naturally sweetened with xylitol, which has been shown to fight the formation of plaque and bacteria that cause tooth decay.

- Ultimate Protection** – Formulated to protect and support delicate cosmetic dental work and pearly whites.
- Instant, All-Day Fresh Breath** – Gently say goodbye to bad breath with our fast-acting, patented formula of Oxygene® and zinc. We don't just mask bad breath; we safely neutralize it at the source in just 60 seconds.*

Cavity Protection

FLUORIDE FRESH MINT TOOTHPASTE

FIGHTS CAVITIES

SOOTHES GUMS

FRESHENS BREATH

LOW ABRASION

Ingredients: Sorbitol, Sodium Fluoride, Hydrated Silica, Glycerin, Water (Aqua), Sodium Lauryl Sulfate, Chondrus Crispus (Carrageenan), Stabilized Chlorine Dioxide (Oxygene®), Sucralose, Zinc Acetate, Titanium Dioxide, Natural Mint Flavor.

1 oz/28 gUPC 638822000306
5 oz/142 gUPC 638822000283

CAVITY FREE IS THE WAY TO BE

Our innovative fluoride formula toothpaste is infused with natural peppermint oil and effectively helps fight cavities and plaque buildup. It's soothing, cooling and powerful.

While other brands often use stannous fluoride, which can cause yellow teeth stains, we only use safe and effective ingredients. Our concentration of non-staining neutral sodium fluoride provides ultimate protection without damaging those dazzling smiles.

Exceptional breath control with cavity-fighting protection ... Nothing beats this formula.

- Ultimate Cavity Protection** – Incredible fluoride formula to help protect smiles from cavities.
- Helps Tooth Sensitivity** – Helps to desensitize sensitive teeth and gums.
- Instant, All-Day Fresh Breath** – Finally say goodbye to bad breath with our fast-acting formula of Oxygene® and zinc. We don't just mask bad breath, we safely neutralize it at the source.
- pH Balanced** – The key component to healthy teeth and gums.
- Alcohol Free** – We didn't jump on this bandwagon; we pioneered it. Our formula protects smiles without burning or dehydrating delicate tissues.
- Low Abrasion** – The best smiles are healthy ones! That's why we're serious about protecting delicate enamel, gently ... without the gritty, harsh texture.

COMBAT CAVITIES AND BAD BREATH

Our exceptionally powerful fluoride mouthwash helps fight plaque and is ideal for anyone who is cavity prone, has exposed root surfaces, or suffers from periodontal disease. It's the perfect formula for a truly radiant smile and fresh breath.

While other brands often use stannous fluoride, which can cause yellow teeth stains, we only use a safe and effective concentration of non-staining neutral sodium fluoride to provide cavity-fighting protection without damaging those dazzling smiles.

We've also added our unique ingredient Oxygene®, which guarantees the cleanest and freshest breath possible. Coupled with xylitol, our formula has been shown to fight the formation of plaque and bacteria that cause tooth decay.

- Ultimate Cavity Protection** – Incredible fluoride formula to help protect smiles from cavities.
- Helps Tooth Sensitivity** – Helps to desensitize sensitive teeth and gums.
- Instant, All-Day Fresh Breath** – Finally say goodbye to bad breath with our exclusive ingredient Oxygene®. We don't just mask bad breath; we safely neutralize it at the source in just 60 seconds.*

- Bendable so it fits everyone's tongue size.

12-Month Study

PUBLISHED IN THE INTERNATIONAL JOURNAL OF BIOMEDICAL AND ADVANCE RESEARCH

12-MONTH, DOUBLE-BLIND STUDY REVEALS OXYFRESH DENTAL PRODUCTS OUTPERFORM CONVENTIONAL STORE BRANDS

Oxyfresh takes pride in making products that matter – products that help our tribe and make a difference in their lives.

Our maximum strength Fresh Breath Lemon Mint Toothpaste and Mouthwash went up against conventional store-bought products to see how they compared in reducing plaque and improving gum health in periodontitis patients.

Oxyfresh did not sponsor this study, just supplied the product.

The exciting results are in ...

LONG-TERM REGULAR USE

Oxyfresh

GETS
BETTER
RESULTS

vs.

Conventional

Oxyfresh Benefits:

- ✓ Reduces Plaque
- ✓ Improves Receding Gums
- ✓ Strengthens Gum Tissue
- ✓ Reduces Bacteria That Cause Periodontitis

Oxyfresh
Lemon-Mint
Mouthwash

Oxyfresh
Lemon-Mint
Toothpaste

Aerosol Study

PUBLISHED IN DENTAL HYPOTHESES; OFFICIAL PUBLICATION OF THE AMERICAN BIODONTICS SOCIETY AND THE CENTER FOR RESEARCH AND EDUCATION IN TECHNOLOGY

DOUBLE-BLIND AEROSOL STUDY REVEALS **OXYFRESH FRESH BREATH MOUTHWASH** IS JUST AS EFFECTIVE AS CHLORHEXIDINE IN REDUCING AEROSOL CONTAMINATION

During routine dental procedures, the risk to dental professionals and their patients from aerosol and splatter production is REAL.

In order to reduce bioaerosols, many dental teams have patients rinse before procedures with a product called Chlorhexidine (CHX).

In this study, it was found that Oxyfresh Fresh Breath Lemon Mint Mouthwash performed just as well as prescription-grade mouthwash, but without the harsh teeth-staining chemicals, dry mouth and terrible taste!

EXCITING NEWS ABOUT BIOAEROSOL REDUCTION

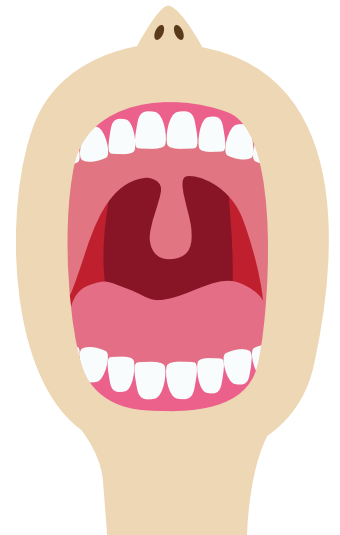

Oxyfresh

VS.

Chlorhexidine

The Results

- ✓ Both Oxyfresh Lemon Mint Mouthwash (ClO_2) and Chlorhexidine (CHX) **significantly reduced bacteria** during ultrasonic scaling.
- ✓ Oxyfresh Lemon Mint Mouthwash was **just as effective as CHX in reducing bacteria** ... but without the undesirable side effects!

OXYFRESH DENTAL PROFESSIONAL

Reviews

Customizable to Each Client

"I have been recommending Oxyfresh dental care products in my practice for over 15 years. Oxyfresh is one complete system that can be customized and tailored to any client's needs."

As a cosmetic dentist, protecting my clients' investments and maintaining their beautiful new smiles with products that taste great and have no harsh abrasives, dyes or alcohol is definitely a win!"

Wouldn't Use Any Other Brand

"I give the Pro Formula Toothpaste to all my patients. I wouldn't use any other toothpaste. For implant patients, I give them a gallon of Fresh Mint Mouthwash, as it keeps the implant area clean and healthy!"

Harley B.

Manassas, VA

Dental Professional Customer – 14 years

Absolute Best Products

"Oxyfresh Toothpastes and Mouthwashes are absolutely the best products I've found. I sell the products in my dental practice and my patients feel the same way."

Barbara D.

Powerful and Effective

"I always recommend Oxyfresh Dental Gel. It works better than anything we've tried for promoting healing in the mouth from scrapes and sores."

Couldn't Practice Without It

"As a 'fill in' dental hygienist, I am in different offices. I always have Oxyfresh Pro Relief Dental Gel with me. There are always patients who need it."

I have applied it to soothe tissues that are irritated from burns, abrasions, after root planing, surgical areas, chemotherapy, denture sores, etc."

Patients are so happy with the immediate relief it provides in their mouths. I could not practice dental hygiene without it!"

Product for Every Need

"Patients love how the low abrasion toothpaste helps with sensitivity."

The Lemon Mint Mouthwash is a favorite because it's alcohol-free, which means no burning. It leaves a fresh, clean taste."

The Oxyfresh Dental Gel is so soothing for any inflammation in the mouth. Our patients appreciate that we provide a program to support their cosmetic dentistry and their periodontal health."

OXYFRESH DENTAL PROFESSIONAL

Reviews

Great Fit for Our Practice

"The Ultimate Fresh Breath Kit is great for our practice! My patients prefer these products due to the great value and benefits they offer.

I prefer it because it has all the versatile products they need for their home care regimen, all neatly wrapped up in one convenient spa bag. Best of all, the kit helps them become active, successful partners in their periodontal care."

Highly Recommended

"I have been using and recommending Oxyfresh products for nearly 20 years. Many products have come and gone since then, but nothing compares to the effectiveness and patient satisfaction that characterizes every Oxy product."

Gerald C. DDS

San Antonio, TX

Dental Professional Customer — 22 years

Remarkable Results

"There isn't a single oral-tissue procedure where I don't use Pro Relief Dental Gel. In 23 years of practice, I have never seen such dramatic results when it comes to tissue healing. My patients heal quicker and have less post-op soreness, and that makes them smile — which is a good thing when you're a dentist."

Dennis P. DMD.

Solution to Halitosis

"We love Oxyfresh Lemon Mint Mouthwash and Toothpaste at our office. We always hear great feedback from our patients who suffer from halitosis. These products definitely do the job."

Nothing Else Works As Effectively

"My patients' plaque levels are measurably reduced as a result of using Oxyfresh's Lemon Mint Mouthwash and Toothpaste. Having practiced hygiene for over 20 years, I have never experienced a system as effective.

My patients all love the taste, their fresh breath, and the clean feel of their mouths. I have a couple in the practice who swear that Oxyfresh saved their marriage!

When patients have not been in for a cleaning in years, often their gums are swollen, sore, and painful. I apply Oxyfresh's Pro Relief Dental Gel to their tissues and my patients experience immediate relief. It is so soothing. My patients' comfort levels are improved, and they have a better experience.

As a dental professional, a product that makes my patients confident and comfortable in my chair is priceless. I, personally, use them and recommend Oxyfresh's entire dental line to all my patients, family, and friends."

Products I Believe In

"I have been recommending Oxyfresh dental products for 15 years. My patients love that I care enough to recommend something I personally use and believe in.

By carrying the products in the office, we provide them the convenience of taking professional-grade products home, thus eliminating the confusion they face in the toothpaste aisle at the store."

Anne D. RDH

Such a Big Transformation

"I had a patient diagnosed as a type-II perio with poor oral hygiene. She did not want to schedule for SRPs right away. I recommended Oxyfresh Dental Kit for her and scheduled a re-evaluation in four weeks.

Of course, I knew the re-evaluation was only to pacify her and that treatment would still be needed. But, my gosh, the minute she opened her mouth, without probing her, I noticed a definite difference in tissue tone, consistency, and improved oral hygiene. With probing, she wasn't bleeding as much at the initial exam. She noticed the difference, too, and is now scheduled for the treatment she needs.

I have a second patient, a new receptionist in my office, who has been using Oxyfresh products for three months. When I initially saw her, she had moderate generalized tartar and heavy bleeding. This time around, she hardly had plaque, had very little bleeding, and her teeth were noticeably whiter. Wow!"
